Chloride of Methyl.

Apparatus for Giving the Chloride of Methyl Spray.

A - Copper siphon containing the chloride of methyl. **B**—Head of screw opening or closing the siphon. **C** - Thumb-screw for attaching spray tube to siphon. **D**—Disk, the turning of which determines the amount of spray. **E**—Circular key fitting on and turning the head of the screw **B**. To use the spray, close **D** tight, then place **E** on **B** and by a turn allow the gas to escape into the spray tube.

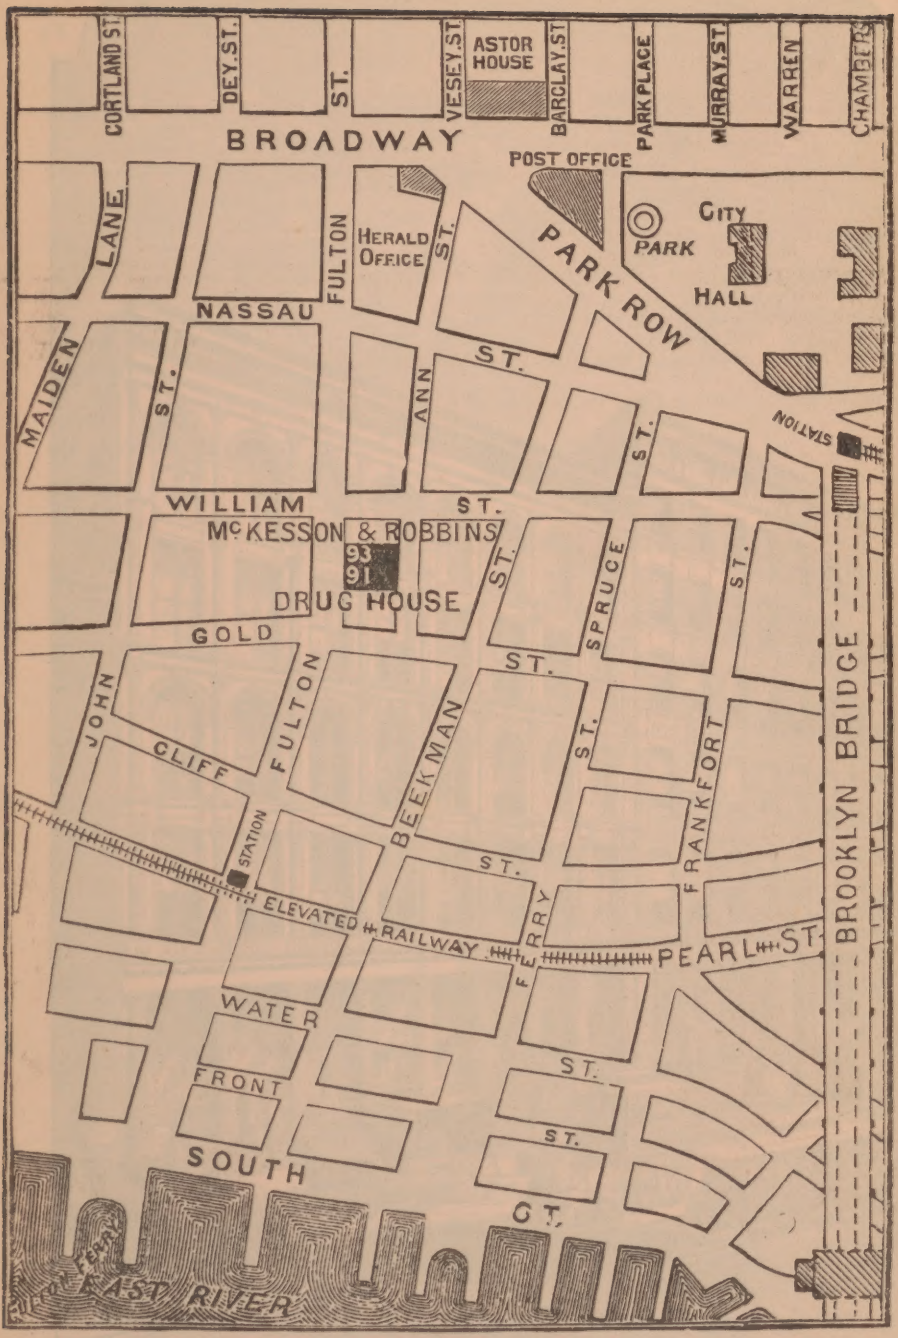

The patient being ready, a slight turn of **D** liberates the spray.

TERMS ON WHICH SIPHONS ARE SOLD.

Copper Siphon,	net	$20 00
Chloride Methyl, contained in above,		5 00
		$25 00

Terms: Net cash on delivery. On account of not having been able to make satisfactory arrangements with the makers, we cannot allow for Siphons returned; neither can we rent nor loan them. Refilling Siphons, or exchanging (if in good order) $5.00 each.

INTRODUCTION.

WE take pleasure in submitting our SPRING LIST OF PRICES.

DRUGS—The first Eighty-one pages are printed somewhat in the form of a price-book, so that changes in prices, which we shall endeavor to furnish from time to time, or other memoranda may be inserted on a line with each article. Through our representatives in the principal markets of the world, we possess superior advantages for the purchasing of our stocks; and our customers may rely upon receiving the benefits of such arrangements. We call attention to our Bi-weekly, "Drug Topics," which we issue every two weeks for the nominal sum of $1.00 per year. We endeavor to furnish in "Drug Topics" prompt information regarding the uses, doses and prices of new remedies, and in the market reports and other information, strive to furnish matter interesting and instructive to the trade.

CHEMICALS AND PHARMACEUTICALS.—We are happy to announce that the increased demand for our Pharmaceuticals has necessitated further extension of our laboratories. These products are quoted on pages 83 to 130, inclusive. Our GELATINE-COATED PILLS enjoy the preference of the medical and pharmaceutical professions generally; and their acknowledged merits of neatness, accuracy, and reliability, upon which their popularity rests, will be equally characteristic of all our other preparations. Particular attention is asked to our ALBOLENE, (the finest and whitest petroleum jelly in the market), Fluid and Solid Extracts, Oleates (made with a carefully purified oleic acid, which insures freedom from odor and rancidity), Purified Granulated Salts, Pepsin (Saccharated and Concentrated), Warburg's Tincture (genuine and with Cinchonidine), Terebene, Cocaine Preparations, and a full line of requisites for the soda water fountain, including Pure Fruit Juices and Concentrated Essences. The quality of our Juices has secured for them universal approbation and a largely increased sale.

DRUGGISTS' SUNDRIES, FANCY GOODS, &c.—We desire to call special attention to the changes and insertions on pages 174 to 202 in the price list of these departments. These have occurred since the issue of our general prices-current of 1883 for druggists' sundries, fancy goods, and surgical instruments. May we ask our friends who still hold a copy of this book to make corrections to correspond therewith?

Prominent among the additions please note VENNARD'S NONPAREIL PERFUMES, on pages 181, 182 and 190.

SPONGES AND CHAMOIS.—We have agents at the chief sources of supply; and stock comprises varieties that cannot fail to please the most discriminating buyers. A special catalogue of these goods will be mailed gratis on application.

TERMS.—Prices will be subject to future market variations. Quotations for drugs, chemicals, proprietary articles, and sundries are *net*. ASSORTED INVOICES will be sold payable within 30 days, in New York, or interest will be charged at six per cent. per annum, after 30 days, and draft made payable at 60 days from date of shipment, unless otherwise arranged. A discount of ONE per cent. for cash will be allowed whenever remittance accompanies order. SPECIAL ORDERS for goods, not embraced in our usual catalogue, as also articles, which are marked *cash*, will be filled at manufacturers' prices for cash only, payable on receipt of invoice.

In conclusion, we beg to say we have been as definite as possible in describing the varieties of particular articles, as also the forms in which the same are usually sold, to prevent misunderstanding in regard to quality or prices; and we shall be happy to furnish goods (of strictly reliable character, put up with promptness in the best style of execution), *in any quantities desired*, on such terms as will merit a continued patronage.

CORRESPONDENTS MAY RELY UPON THE PROMPT EXECUTION OF THEIR ORDERS FOR GOODS IN QUANTITY, AS WELL AS RARE ARTICLES, PERTAINING TO EVERY BRANCH OF THE BUSINESS. AS IT IS WELL KNOWN THAT WE CARRY IN STOCK THE LARGEST AND MOST COMPLETE ASSORTMENT IN THE TRADE. BY OUR PRESENT ARRANGEMENTS, WE ARE ENABLED TO SHIP AND INVOICE ON THE DAY OF RECEIPT ALL ORDERS THAT REACH US BY THE MORNING MAILS.

We solicit your orders or lists for quotations for specified quantities, which will receive careful and prompt attention, with all the advantages which the quantity ordered and the market will permit.

Very respectfully yours,

McKESSON & ROBBINS.

APRIL, 1893.

In presenting our annual Prices Current, we desire to express our sincere thanks to our patrons for the continued generous recognition of our efforts.

The dependence of the physician and his patients upon the pharmacist, and the confidence which should mutually exist, impose upon the wholesale dealer and the manufacturer obligations, the inviolability of which we fully appreciate. In extending the sphere of our labors, and endeavoring to keep pace with the progress of therapeutic science, no efforts will be spared to properly discharge these obligations.

During the past year, we added to our list of pharmaceutical manufactures the Pyrozone solutions (caustic, antiseptic and medicinal), and the compound stearate of zinc preparations. These combinations of the stearate of zinc are of especial value in the treatment of skin diseases and affections of the mucous membranes generally.

Orders are solicited for goods in any way related to the drug trade; and by accuracy, neatness and promptness in execution, we hope to merit your continued favors.

Very respectfully,

McKesson & Robbins.

MEDICINAL AND TECHNICAL DRUGS,

CHEMICAL AND PHARMACEUTICAL PREPARATIONS.

This book, being intended for a commercial list of prices of goods, in regular and occasional demand, is compiled and arranged with this view. It is not deemed advisable to encumber it with articles seldom inquired for, but we will always be happy to furnish any crude drug or proprietary article obtainable, or manufacture any pharmaceutical or chemical preparation, which cannot be supplied from our stock or in our market.

We give special attention to supplying new stocks. Our large and complete assortment enables us to fill such orders entire, and give satisfaction in price and quality.

These Extracts are prepared by cold re-percolation, thereby avoiding the effect of heat and exposure to the air, which impair those active principles in which the virtues of all vegetable remedies consist. By experience we have determined the greater efficacy of different menstruums in the exhaustion of the virtues of different drugs; in some, glycerin being a valuable adjunct to the alcohol: in others, objectionable. Each drug is carefully studied by itself, and great care is taken that each lot of the same extract shall be uniform with the preceding, the specific gravity, where the same menstruum is used, being a test. The process which we employ has been endorsed by the leading Pharmaceutical journals and by our best chemists, and every thinking Pharmacist will readily acknowledge the danger of applying heat to medicinal drugs. Formulas for making Syrups, Tinctures, &c., from our Fluid Extracts, are printed on the labels.

* This Asafetida should be used by druggists instead of the powdered, as the BEST QUALITY of the Gum cannot be powdered so that it will not run together, and it is also injured by heat in drying. It is much superior to the Gum, as it is pure, freed from dross.

McK.&R. Juices are pronounced superior to anything of the kind ever offered in market, retaining the flavor of the fruit, and if properly cared for, free from any danger of fermentation; they are manufactured in our laboratory, and we can guarantee that no Ethers, nor any injurious substances whatever, enter into their composition. In preparing Soda Water Syrups no heat nor any addition of acid or coloring matter is necessary. Merely mix the juice and simple syrup in the proportion given on the label and the flavors are ready for use.

By a method of our own, we obtain this salt absolutely pure, free from the red iodide or metallic mercury; and in PERFECTLY IMPALPABLE POWDER. The advantage of this must be apparent to every physician and pharmacist. We have received abundant testimony as to the great superiority of this preparation. The irritation of the stomach so frequently caused by the ordinary salt is no doubt due to impurity, such as red iodide, and is not observed in the use of our proto-iodide. We will furnish samples of the granules or of the salt on application. See page 105. Caution! Specify "McK. & R."

OILS, ESSENTIAL, NOTE:—We would call special attention to our essential oils, which are selected and tested with the greatest care, the finest qualities of both medicinal and technical oils being offered in the following list. Our extended connections, both in home and foreign markets, give us unusual facilities in selection of qualities and in prices, the advantages of which we can offer to our customers. Whether Castor, Cod Liver, or Croton Oils are required for Medicine; Lemon, Peppermint, or Wintergreen, for Flavoring Extracts; Bergamot, Neroli, or Rose for Perfumery, it should be regarded as an axiom—"the best is always the cheapest."

The foregoing pages embrace all the important drugs, chemicals, oils, etc.

Our supplies are purchased in the most advantageous markets, and our stock, as is well known, is the largest in the United States, if not in the world. In the fitting out of new stores our comprehensive stock will be found of great convenience; we carry everything required by the well-equipped druggist.

Correspondents may rely upon receiving all the benefits of our superior advantages, both as regards prices and quality of goods, and whether their orders are for small or large quantities.

Articles not in the regular drug line, we are always very glad to purchase for our customers whenever desired.

Our rule is to ship all express orders on the day of receipt, as well as freight orders reaching us in the morning's mail.

It is sometimes economical to forward by mail small articles needed in a hurry. We always prepare such packages with the utmost care, but we cannot assume any responsibility for breakage or loss, should any occur.

We invite your orders and correspondence, and whenever you have occasion to visit our city a personal call will be appreciated.

McK.&R. Albolene Atomizer.

THE ALBOLENE ATOMIZER, **A.**

This is the simplest and handiest atomizer in the market.

It takes up but little room, can be easily filled and emptied, is well and strongly made, not easily broken, and can be readily carried in the pocket.

THE ALBOLENE ATOMIZER is expressly designed for the vaporization of LIQUID ALBOLENE and combinations in the treatment of diseases of the air passages: asthma, bronchitis, hay fever, nasal catarrh, etc.

McK.&R. LIQUID ALBOLENE.

SUPPLIED ONLY IN 4 OZ., 16 OZ. AND 5 LB. BOTTLES.

This is a colorless, tasteless and odorless fluid obtained from petroleum; it does not saponify nor become rancid, is not decomposed by acids or alkalies, and is especially adapted for use in a vaporizer or spray apparatus.

DR. CHARLES H. KNIGHT uses a spray of menthol and liquid albolene. DR. LENNOX BROWNE found the same agent very valuable in the treatment of influenza; he also uses it constantly for ordinary colds, bronchitis, etc.

"Liquid Albolene is preferable to fluid vaseline, for the latter alone often proves irritating to the mucous membrane."—Dr. S. S. Bishop, *Med. News*, July 26, 1890.

McK.&R. BENZOINATED LIQUID ALBOLENE.

SUPPLIED ONLY IN 4 OZ., 16 OZ. AND 5 LB. BOTTLES.

This is a very agreeable preparation of liquid albolene. It is especially recommended for use in an atomizer, and also for operations on the eye. For this last and most delicate purpose liquid albolene is eminently fitted, as, according to Dr. Lundy, it never becomes rancid, as other preparations so often do. This is due to its absolute purity.

McK.&R. COMBINATIONS OF LIQUID ALBOLENE.

Camphorated Liquid Albolene.
Campho-Carbolated Liquid Albolene.
Campho-Mentholated Liquid Albolene.
Carbolated Liquid Albolene.
Corrosive Sublimated Liquid Albolene.
Eucalyptolized Liquid Albolene.
Mentholated Liquid Albolene.
Thymolated Liquid Albolene.

SUPPLIED ONLY IN 4 OZ., 16 OZ. AND 5 LB. BOTTLES.

McK.&R. ALBOLONE SPRAY SOLUTION.

Formula:—Menthol, Thymol, Eucalyptol, Liquid Albolene.

SUPPLIED ONLY IN 4 OZ., 16 OZ. AND 5 LB. BOTTLES.

☞ We are obliged to caution the profession against injurious imitations of McK.&R. Liquid Albolene and Combinations, and would suggest their prescribing in 4 oz. or 1 lb. bottles whenever practicable.

LABORATORY DEPARTMENT.

We were awarded the highest medals, both at the Vienna and our Centennial Expositions, for excellence of our Preparations, including Gelatine-Coated Pills, Fluid Extracts, Elixirs, Syrups, &c., and we take pride in calling attention to the unqualified favor with which they have been received by the medical and pharmaceutical professions. We ask the continued patronage of those, who, by experience, can attest their superiority, while we request trial orders from all with whom quality is the main desideratum. We received a medal at Paris, in 1878, for crude indigenous drugs and essential oils, which comprised our whole exhibit. We were also awarded the first medal at Sydney, Australia, for fine Chemicals, which embraced our Quinine, Cinchonidine, &c. We were awarded a silver medal for our Capsuled Pills, at the Calcutta Exhibition of 1883-4, a gold medal at the exhibition at Ostend, Belgium, 1888, and a gold medal at the exhibition at Barcelona, Spain, 1888. At the Michigan State Pharmaceutical Association, held in Detroit, 1888, we were awarded a gold medal for the most instructive exhibit.

We desire to call attention to the purity, whiteness and lightness of crystallization of McK. & R. Quinine, Morphine and Cinchonidine.

Regarding the cause of dissatisfaction with many of the Fluid Extracts and Pills offered in the market, to be due to careless selection of the crude drug, careless manipulation in manufacture, the want of practical knowledge of Pharmacy, and a strong desire to realize excessive profits on sales, we give this department our personal attention, and carefully superintend every detail.

ABSTRACTS—U. S. P., 1880.

Each grain of the powder represents two grains of the crude drug. Keep in well corked bottles in a cool place.

McK.&R. ALBOLENE.

For Medicinal and Pharmaceutical Use.

Conforming to U. S. P. requirements for Petrolatum, but superior to this and all similar products, as it is colorless and odorless and cannot become rancid.

When Albolene is ordered the "Solid" is always understood. When the Liquid is desired, please always specify "Liquid Albolene."

We take pleasure in calling attention to this product as an article that will meet, in the most satisfactory manner, many wants of the physician and pharmacist.

ALBOLENE is a carefully refined product from a peculiar kind of petroleum, and possesses in an eminent degree properties which constitute it THE IDEAL BASE FOR OINTMENTS, CERATES, SALVES, POMADES, ETC. Its soft, unctuous nature renders easy the uniform incorporation of the medicaments. It is readily absorbed. It is free from any definite chemical or physiological action, hence the most delicate ingredients may be incorporated with it without possibility of change. It is white and odorless, and will not become rancid. Its healing properties render it a valuable adjuvant to the active ingredient, particularly in applications to inflamed or abraded surfaces.

ALBOLENE answers all the pharmacopœial requirements of Petrolatum, and is vastly superior to this and other similar products, as it is absolutely *colorless and odorless*, and free from any possibility of becoming rancid. For *Chafing, Sunburn, and Chapped or Fissured surfaces it is a soothing and agreeable application.*

As a base, which cannot become rancid, and which preserves the color even of "carbolic salve" or "citrine ointment," Albolene has a just claim to be used in the manufacture of all cerates and ointments, in which the medicaments do not contain water, such as aqueous solutions or aqueous extracts.

The cerate combinations of Albolene, mentioned in this list, are of ideal consistency for spreading on linen, and cannot become rancid before or after they are applied.

This water-white oil is odorless and tasteless, and does not congeal nor become rancid. It is suitable for injections and for lubricating purposes, and has been recognized by many prominent authorities as especially valuable for spraying in the treatment of nasal, aural and laryngeal affections, being non-irritant and innocuous in action and a solvent of nearly all the medicaments employed in these ailments. Liquid Albolene is also recommended for injections and as a lubricant to facilitate digital examinations, the passage of instruments, etc. It is cleanly, inodorous and non-irritant. As a fine illuminating oil it is preferable to olive, rapeseed, etc.

Liquid Albolene is a colorless, tasteless and odorless fluid with a specific gravity of .865 at 60° F. It does not saponify nor become rancid, neither is it decomposed by acids or alkalies.

It forms clear solutions with stronger ether, chloroform, oil of turpentine, oleic acid, benzole, toluol and carbon bisulphide.

Its lightness, and freedom from odor, taste, etc., eminently fit it for use in a vaporizer, spray apparatus, or in ordinary hand atomizer. We give below a list of preparations of Liquid Albolene which may be employed to advantage in the treatment of all NASAL, LARYNGEAL and PHARYNGEAL affections.

Liquid Albolene is the best solvent of these active ingredients for spraying purposes. These combinations are very carefully prepared, and will be found serviceable either for spraying or for topical use wherever the special ingredient is indicated.

DR. CHARLES H. KNIGHT uses a spray of Menthol and Liquid Albolene largely in his throat practice. DR. LENNOX BROWNE found the same agent very valuable in the treatment of influenza; he also uses it constantly for ordinary colds, bronchitis, etc.

"Liquid Albolene is preferable to fluid vaseline, for the latter alone often proves irritating to the mucous membrane."—DR. S. S. BISHOP, *Med. News*, July 26, 1890.

McK.& R. ALBOLENE SPRAY SOLUTION.

McK.& R. BENZOINATED LIQUID ALBOLENE.

This is a very satisfactory preparation of Liquid Albolene. It is especially recommended for use in an Albolene Atomizer, and also for operations on the eye. For this last and most delicate purpose Liquid Albolene is eminently fitted, as, according to DR. LUNDY, it never becomes rancid, as other preparations so often do. This is due to its absolute purity.

The addition of Benzoin imparts an agreeable aromatic odor, and is by many believed to add to the protective properties of the Liquid Albolene.

McK.& R. Liquid Albolene and its compounds, and the McK.& R. Albolene Spray Solution, are supplied only in 4 oz., 16 oz., and 5 lb. bottles.

ALBOLENE FOR POMADE.

As a pomade material, being insoluble in cold alcohol, it is superior to fat or oils for making mother pomade and possesses a much greater affinity for odors, while it is inodorous and will not become rancid.

CAUTION!

We had the pleasure of presenting to the Medical Profession a few years ago, **ALBOLENE**, a perfectly WHITE, NEUTRAL, ODORLESS and TASTELESS Petroleum Jelly; and **LIQUID ALBOLENE**, a COLORLESS, ODORLESS, TASTELESS and NEUTRAL Petroleum Liquid. The marked favor with which both of these preparations were received, have led to many imitations, most of which are of a character that render them unsafe for use. We deem it due to the security and reputation of the physician as well as our own to issue this word of caution against these imitations, and to respectfully urge the importance of specifying McK.& R.'s Albolene, or McK.& R.'s Liquid Albolene, as may be desired, in all prescriptions and orders, and of ordering both as far as possible in the original peakages, as put up by us.

McK. & R. ALBOLENE ATOMIZER "A."

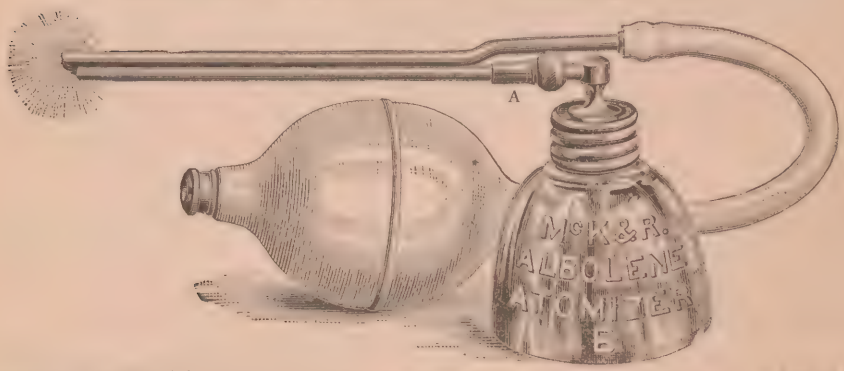

THE ALBOLENE.

This is the simplest and handiest atomizer in the market.
It takes up but little room, can be easily filled and emptied, is well and strongly made, not easily broken, and can be readily carried in the pocket.
THE ALBOLENE ATOMIZER is expressly designed for the vaporization of LIQUID ALBOLENE and combinations in the treatment of diseases of the air passages: asthma, bronchitis, hay fever, nasal catarrh, etc.

COCAINE AND COCAINE PREPARATIONS.

McK. & R. brand of Muriate Cocaine is crystallized from an alcoholic solution, and is remarkable for the dryness, purity, and whiteness of the crystal. We manufacture only the anhydrous variety; and physicians and druggists can feel assured of receiving a uniform article by ordering "McK. & R.'s anhydrous crystals" in original vials. It is put up in 5, 10, 15 grain, ¼ and 1 oz. vials. The *British Medical Journal*, (July 24, 1886), speaking of McKESSON & ROBBINS' cocaine, says: "A nominally 5% solution is notably stronger than a solution prepared with other crystals." Both the *Lancet* and *Medical Press*, of London, speak in the highest terms of the McK. & R. preparations.

EXTRACTS, FLUID, McKESSON & ROBBINS'.

(DISCOUNT, LIBERAL.)

These Extracts are prepared by cold re-percolation, thereby avoiding the effect of heat and exposure to the air, which impair those active principles in which the virtues of all vegetable remedies consist. By experience we have determined the greater efficacy of different menstruums in the exhaustion of the virtues of different drugs; in some, glycerin being a valuable adjunct to the alcohol—in others, objectionable. **Each drug is carefully studied by itself, and great care is taken that each lot of the same extract should be uniform with the preceding, the specific gravity, where the same menstruum is used, being a test.** The process that we employ has been endorsed by the leading Pharmaceutical journals, and by our best chemists, and every thinking Pharmacist will readily acknowledge the danger of applying heat to medicinal drugs. **Formulas for making Syrups, Tinctures, &c., from our Fluid Extracts, are printed on the labels.**

Each pint of our Extracts represents one pound of the raw material, and the dose can be regulated accordingly. The only exceptions are Fluid Extract of Opium Aqu. and Deod., one pint of which is equivalent to 1¼ ozs. U. S. Powdered Opium. Each minim of Fluid Extract Opium for Tincture represents one-half grain of U. S. Powdered Opium; Fluid Extract of Vanilla and Fluid Extract of Rhubarb Aromatic, which are twenty-five per cent., and Fluid Extract of Tolu and Fluid Extract of Benzoin, which are half strength, on account of density. Put up in 5 pt., 1 pt., ½ pt. and 4 oz. bottles.

We desire to call special attention to our Fluid Extracts of Ipecac, Squill, Squill Comp., Sarsaparilla Comp., &c., for Syrups, which make clear Syrups by simple admixture, no filtration being necessary.
Special net prices furnished for bulk lots in specified quantities.

☞ **Our Extracts are sent in 1 pint bottles, unless specially ordered otherwise.**

This preparation of golden seal is colorless and contains the main alkaloidal principles of the drug. It is of the same strength as the fluid extract, and may be given whenever golden seal is indicated. It is devoid of bitterness, and will not stain the linen when used topically.

Hydrastol, in 4 oz. bottles	doz.	3 50

The use of Hydrastol, which is produced by the action of hydrocarbon on hydrastis, with aromatic antiseptics, as a spray or injection in pathogenic conditions of the mucous membrane passages, has been very promptly admitted, and the value of hydrastis is greatly enhanced by the effective character of the menstruum employed in hydrastol. It may be prescribed with an albolene atomizer and the best effects secured by spraying the nose and throat once an hour, or used in other passages as the physician may direct.

PILLS, GELATINE-COATED, McKESSON & ROBBINS'.

OVOID IN SHAPE.  **CONTINUOUS COATING.**

(PROCESS AND MACHINERY PATENTED.)

It will be readily conceded that the preference of the medical and pharmaceutical professions for GELATINE-COATED PILLS, which is now so general, has been established by the merits of our manufacture. The reputation which the McK. & R. Pills have gained has induced (as is usually the case) many imitations, in most of which, unfortunately, the *price* has been more of an object than the *quality*. We respectfully urge upon all who would protect themselves against these, the necessity of mentioning our name or initials in ordering pills from other wholesalers. Nearly all the prominent jobbing houses in the United States, Canada, Great Britain, and the Colonies carry the complete line; and the pills may be procured from them by specifying "McK. & R.'s" when ordering. By observing this precaution, the pharmacist will avoid inconvenience to himself and disappointment in results to his physicians and patrons.

We ask attention to the following features of the McK. & R. Pills:

1st. They are reliable, being made strictly in accordance with the formulas given, and of the best materials only.

2d.—They are soluble: the gelatine, being speedily converted into jelly, the contents of the Pill are left free to act. TO TEST THE SOLUBILITY OF THE COATING, PLACE A PILL IN THE MOUTH AND NOTE THE RAPID DISSOLUTION OF THE GELATINE. A SINGLE TRIAL OF A DOSE OF COMPOUND CATHARTIC PILLS WILL ATTEST THEIR SOLUBILITY AND EFFICACY.

3d.—They are very easy to take: patients, who have found it almost impossible to swallow a plain, compressed or sugar-coated pill, are surprised at the readiness with which the McK. & R. Capsuled Pill "goes down," on account of the ovoid shape and the nature of the coating.

4th.—Our Pills are ovoid and, unlike others, *necessarily soft*, when coated. *Our process is the only one in which the mass can be coated when* SOFT; in fact, the pills *must* be soft in order to be coated by our machinery, and the COATING COMPLETELY COVERS THE PILL WITH GELATINE.

ACETANILID (Antifebrile)—2 grs.	40	1 80
ACETANILID (Antifebrile)—5 grs.	60	2 80
The literature regarding the value of this drug is extensive, and most observers consider it one of the most valuable, if not the most valuable antifebrile we possess. Dose: the best initial dose is about five grains, this may be repeated every few hours, thirty or forty grains being taken daily. The fall in temperature in acute fevers amounts to several degrees and lasts from 4 to 12 hours.		
ACETATE MORPHINE—See Morphine.		
ACID, ARSENIOUS—See Arsenious Acid.		
ACID, SALICYLIC—See Salicylic.		
ACID, THYMIC—See Thymol.		
ACONITINE (Amorphous)—1-100, 1-60 gr.	60	2 80
Narcotic. Dose, 1-100 to 1-60 grain, given cautiously.		
ACONITINE (Duquesnel's Crystals), 1-500 gr.	60	2 80
Dr. E.C. Seguin ("Archives Medicine," June, 1882,) says: Aconitine has been used by many physicians in numerous cases of trigemenial neuralgia, with very favorable results. A large proportion of cases have been cured, and some very ancient cases (8 to 12 years) greatly relieved by the medicine. Dr. A. Dumas speaks highly of the use of this drug in neuralgia, in very small doses. He says it is a very precise remedy and must be given with great regularity. He lays particular stress on the necessity of perfect purity and accurate division, and thinks the source of supply of the drug should in all cases be considered. Physicians generally advise McK. & R. granules of 1-500 gr.		
AGARICIN—1-6 gr.	1 60	7 80
Agaricus was employed several years ago in the treatment of the night-sweats of phthisis. In 1881, Dr. R. Norris Wolfenden, after an experience of 18 months, considered agaricus equal to atropia in checking perspiration, at the same time it was quite innocuous. According to Stefert agaricin may be given in doses as high as 1-4 grain without nausea.

Aloin is the active principle of Aloes and was presented to the profession, in pill form, by us several years ago. Its mild aperient action and freedom from the griping tendency present in aloes, has made it a great favorite with many physicians. Aloin, either alone, or in combination with iron, nux vomica, etc., has been used by a great many English and American practitioners. We commend the various combinations given below.

The above four formulas contitute a series of laxatives for the treatment of constipation; they are mentioned by Sir Andrew Clark. One pill of No. 1 is given at bed-time; should it act too strongly No. 2 is substituted; where there is no special weakness of the heart No. 3 can be administered No. 4 is used where belladonna is indicated.		
ALOIN & STRYCHNINE	60	2 80
Aloin, 1-5 gr. Strychnina, 1-60 gr.		
A tonic laxative granule prescribed for chronic constipation where a painless peristaltic action is required. Dose, 1 or 2, three times a day.

ALTERATIVE	60	2 80
Pulv. Opii, 1-8 gr. Pulv. Ipecac., 1-8 gr. Massa Hydrarg., 1 gr.		
Similar in effects to Blue Mass Comp. When a mercurial alterative, with a decided tendency to the liver is desired, without action on the bowels, this pill will be found one of the best. Dose, 1 to 3, or more.		
AMMONIUM. MURIATE, COMPOUND 1	20	5 80
Ammonii Murias, 1 gr. Pulv. Opii, 1-32 gr. Pulv. Camphora, 1-50 gr. Acid. Benzoic., 1-32 gr. Antim. et Pot. Tart., 1-60 gr. Pulv. Acaciæ. 1 3-4 grs. Ext. Glycyrrhizæ, 1 3-4 grs. Oleum Anisi, 1-32 min.		
Each pill represents about one teaspoonful of the "Brown Mixture" of the U. S. P., with the addition of 1 gr. Muriate of Ammonium, and is recommended "in the advanced stages of catarrhal affections, after expectoration has become established." It may also be advantageously prescribed in throat and lung difficulties generally.		
AMMONIUM, VALERIANATE ..... 1 gr.	80	3 80
M. Declat speaks of the efficacy of this salt in neuralgia in the highest terms, and it is doubtless valuable in all diseases of the nervous system; such as hysteria, chorea, epilepsy, &c. The salt is perfectly preserved in these pills, as can easily be tested. Dose 1 to 8.		
NOTE.—We call attention to our pill of the Valerianates of Quinine, Iron and Strychnine, which will be found a valuable agent in nervous diseases.

ARSENIOUS ACID, 1-60, 1-50, 1-40, 1-30, 1-20 gr.	40	1 80
Alterative and febrifuge; used in cutaneous affections; also in chorea, malaria, etc. In warts the administration of three minims of Fowler's solution three times a day is recommended by Dr. Pullen. He uses the B. P. solution, which contains one per cent. of arsenious acid. One 1-30 grain pill three times a day would thus represent the dose. He states that it is more efficacious than any outward application.

We desire to call attention to the exactitude with which these and our other granules of potent medicines are divided. This result is obtained by actual assay of each lot made. Several observers have recommended the internal administration of atropine in the treatment of that troublesome complaint—cold-in-the-head. For this purpose 1-200 grain granule may be given, with a second six hours after; it is rarely necessary to give a third dose.

BLACK HAW EXTRACT 3 grs.	60	2 80
This drug has been variously reported on in threatened abortion. Dr. Lvoff gave recently (1887) one pill four times daily in fifteen cases of non-syphilitic threatened abortion. In no case did abortion ensue, nor were there any disagreeable results, where the pains were severe he added a quarter grain of opium to each dose.

BLUE MASS, U. S. 5 grs.	45	2 05
This mass is prepared by succussion in strict accordance with the U. S. P. The oxidation of the mercury is very slight, and the mass retains its softness for a long time. As an alterative, from 1-2 to 1 gr. may be given every 24 hours. As a cathartic, from 5 to 15 grs.; in cases requiring a peculiar impression upon the liver, it is well to follow with a more certain cathartic.

CAFFEINE, CITRATE 1 gr.	1 00	4 80
Drs. David J. Brackenbridge and H. Huchard speak highly of this salt in certain cardiac affections. In some forms of heart disease the administration of caffeine will frequently relieve the symptoms where digitalis fails. Recent researches show caffeine to have a directly stimulating action on the kidneys. Its diuretic effect is very marked.

This salt is mentioned by Dr. Ringer in the Lancet for Feb., 1874. We added the pills to our list about twelve years ago, at e request of a prominent physician who used em with great success in scrofula, glandular en rgements, &c. Our sales have been very larg indeed, and this valuable remedy is now much used by the Profession. Dose, in certain cases 1-10 grain may be given every hour, or 1-4 to 1 grain twice a day. Dr. Simeon Snell, in the "Practitioner" for January, 1882, gives a record of several cases of strumous ophthalmia treated with Sulphide Calcium, which recovered very rapidly under its use. He gives 1-16 to 1-8 grain three times a day. These cases are given in N. Y. MEDICAL ABSTRACT, p. 74, 1882. Good results are said to be obtained in the early stage of phthisis by the exhibition of one-half grain every two hours, increasing the dose gradually until one grain is reached, or disagreeable symptoms (usually eructations of gas) are produced.

The usefulness of this preparation has been greatly limited by the varying character of the extracts found in the market. Dr. E. C. Spitzka speaks very highly of the quality of our extract. It is made in porcelain vessels, from the best selected flowering tops, and each lot is tested therapeutically before it is sent out, so that the Profession can depend upon its action with almost as great a certainty as they can on that of Morphine. "In morbid states of the system, it (Ext. Cannab. Indic.) has been found to cause sleep, to allay spasms, to compose nervous inquietude and to relieve pain. It has been specially recommended in neuralgia, gout, rheumatism, tetanus, convulsions, hysteria, mental depression, and delirium tremens." Dose 1-8 to 1-2 gr., repeated in three or four hours and increased if necessary. This drug has also been recommended in dysentery and diarrhœa.

This drug has been highly recommended by McConnell in anorexia (want of appetite); for this complaint the dose should be low, about 1-8 grain, repeated as indicated.

The extract of colocynth, from pulp, and extract jalap are made in our own laboratory. One of these pills will be generally found to act as a laxative, and two of them with certainty as a cathartic. May be employed in most instances where a brisk cathartic is required; but is particularly applicable to the early stages of bilious fevers, to hepatitis, jaundice and all those derangements of the alimentary canal, or of the general health, which depend on congestion of the portal circle.

These pills are prepared from our own solid extract, each lot of which is assayed. A pound of our solid extract contains about 120 grains of the alkaloid, cocaine, and our fluid extract about one-fourth as much, or about 30 grains. The pills have a tonic effect and may be used successfully to overcome the opium habit. Dr. C. E. Shelly ("Practitioner") has found coca to have an astringent action, and he has used it successfully in a case of recurrent hæmorrhage from the rectum. For notes regarding cocaine (the active principle of coca) see Cocaine.

In angina pectoris, Prof. V. G. Lashkevitch has obtained good results from the use of cocaine internally. It does not cut short the paroxysms, but after two or three days' use the attacks gradually decrease in strength and duration, and then disappear altogether. As to general effects, the alkaloid retards the pulse and increases its volume, as well as the quantity of urine. Drs. DaCosta and Penrose found cocaine to have marked diuretic effects, and they suggest its value in cases of weak heart with dropsy, and in uræmia with scanty secretion of urine. Notes on the recent uses of cocaine sent free to any physician. A prominent physician considers cocaine a means of curing the opium habit if properly used. He has never seen a "habit" formed by its use, and classes the drug rather with tea and coffee than with opium in this respect.

This alkaloid of opium appears to have all the good effects of morphine without its objections; it relieves pain and causes a calm sleep, at the same time it does not constipate the bowels, or produce disorder in the stomach. For its value in diabetes see article by Dr. R. Shingleton Smith in NEW YORK MEDICAL ABSTRACT, July, 1882. Dose, 1-4 to 2 grs. Lauder Brunton has found this drug of value in the treatment of abdominal pain where there is no organic disease.

CUBEBS, OLEO-RESIN, with Soda — { Oleo-Resina Cubebæ, 1 gr. / Sodii Bicarb., 1-8 gr. } A prominent physician writes us: "Every physician of experience knows the value of cubebs in treatment of sub-acute and chronic catarrh of the upper air passages, especially of the nose and pharynx. The chief difficulty has been the unpleasant eructations and sometimes nausea following the use of the oleo-resin. The bicarb. soda greatly diminishes this tendency and makes a more extended use of the much-esteemed cubebs practicable."	60	2 80

DIPSOMANIA — { Strychninæ Nitras, 1-60 gr. } Much has been written by the French and Italian writers on the value of strychnine nitrate in dipsomania; lately, papers on the subject have appeared in the "Vratch," a Russian journal, by Drs. Popoff and Tolvinski, in which mention is made of strychnine in several cases. In the case of a man of 34, who had been a hard drinker for years, and had been treated with chloral, opium, bromide, etc., without results, one-sixtieth of a grain of nitrate of strychnine, three times a day, was ordered; spirits not being prohibited. The patient improved and soon lost all inclination for drink.	40	1 80

ERGOTIN (Each pill equals 50 grains Ergot of Rye)	5 grs. 2 40	11 80

We manufacture our Ergotin with great care from the best quality of fresh, selected Ergot, and it contains in the most potent form all the active constituents of Ergot of Rye, each grain representing 10 grs. Ergot, and each 3 gr. pill being equal to half a teaspoonful of official fluid extract. The value of Ergotin, in the place of the crude drug and the Fluid Preparations, is conceded; and it is being largely administered both in this country and in Europe. It has taken a prominent place in the treatment of Neurotic diseases. Many of our most reliable practitioners, and particularly those of extended experience in gynæcology, assert that they have never found a preparation of Ergot, in which, by experience, they felt as much confidence as in McKesson & Robbins' Ergotin Pills. The advantages of prescribing it in this form are obvious. (Dose, 2 to 10 grs.)

WE OFFER OUR ERGOTIN, PREPARED SPECIALLY FOR HYPODERMIC USE, IN ONE OUNCE BOTTLES. SPECIFY M'K. & R.'S FOR HYPODERMIC USE, AS WE MANUFACTURE ALSO AN ERGOTIN AFTER BONJEAN'S FORMULA.

Calcii Hypophos., 1 gr. Sodii " 3-4 gr. Ferri " 1-4 gr. Recommended in phthisis, nervous diseases and general debility. Can be substituted for the syrup of the same name with advantage. Each pill represents one teaspoonful of the syrup. Dose, 1 to 2 pills, three times a day.		
ICHTHYOL 2 grs.	1 00	4 80
Ichthyol is obtained from fossil fish and is asserted to be of value in the treatment of skin diseases, in which it is given both internally and externally at the same time. Nussbaum claims to have had excellent results in the treatment of neuralgia, rheumatism and gouty conditions of the system by the use of ichthyol. In these cases he gives one two-grain pill three times a day rapidly increased to 2, 3 or more pills several times a day until the effect of the remedy is apparent; the drug is then withdrawn. In case of relapse, the dose that was found be effective previously is employed at once. As much as 70 grains have been given daily without bad effects.

IODOFORM 1 gr.	60	2 80
Iodoform has been employed internally in the treatment of gastritis, neuralgia and syphilis. Chauvin and Jorissenne recommend iodoform pills in the treatment of hæmoptyses, particularly of the lungs. Its effect is said to be very rapid and certain; for this purpose one one-grain pill may be given 2 or 3 times a day. It is seldom necessary to give more than seven pills.

IRON BY HYDROGEN (Quevenne's) ....1 gr.	40	1 80
IRON BY HYDROGEN (Quevenne's) 2, 4 grs.	60	2 80
The black, reduced iron generally found in market is not fully deoxidized; its properties appear to be those of an astringent rather than tonic, and it does not take the place of Quevenne's iron or the true Ferrum reductum of the U. S. Pharm., which is of an iron gray color. (See the U. S. Disp., 1884, page 710.) We import Rundspaden's iron, which is used in these pills; the color may be seen upon cutting one of them open. Tonic, and peculiarly well fitted to improve the quality of the blood when impoverished from any cause. Useful in diseases characterized by debility. Usually employed in chronic anæmia or chlorosis, hysteria, scrofula, passive hemorrhages, neuralgia, and dyspepsia when dependent on deficient energy of the digestive function. Contra-indicated in all inflammatory diseases. Dose, 3 to 6 grains three or more times a day, best administered just before or after eating.

Permanganate of potassium has been used as an emmenagogue for some time, but its liability to decomposition and its irritating qualities have made it unsuitable in many cases. Drs. Ringer and Murrell have pointed out that the peculiar action of the drug depended upon the manganese, and hence binoxide of manganese, while free from the objections of the permanganate of potass., would effect the same object. Dr. T. Gaillard Thomas regards manganese as a "regulator of menstruation." In the absence of the menses, irregularity of their recurrence, and in excess of flow, he says: "I now employ McKesson & Robbins' pills of the binoxide of manganese. Of this preparation I give two grains three times a day throughout the month and during the period. I also employ manganese in chlorosis and anæmia, and I think that I obtain better results than I have heretofore done by iron."

We now obtain this salt absolutely pure, free from the red iodide or metallic mercury; and in a perfectly impalpable powder. The advantages of this must be apparent to every physician; in fact we have received abundant testimony as to the great superiority of the new preparation, and our vastly increased sales are additional proof. The irritation of the stomach so frequently caused by the ordinary salt is no doubt due to impurity, such as red iodide, and is not observed in the use of our proto-iodide. We will furnish samples of the granules or of the salt on application. Useful in scrofula and scrofulous syphillis. Should never be given at the same time with Iodide of Potassium, which converts it into Bin-Iodide. Dose, 1-20 to 1-2 gr. Caution! Specify McK. & R.

NITRO-GLYCERIN (Glonoinum), 1-200, 1-100, 1-50 gr.	60	2 80
Dr. M'Call Anderson, mentioning the exhibition of this drug in angina pectoris, says: "My experience of the comparative merits of nitrite amyl and nitro-glycerin is, that while the latter acts more slowly, it seems to be more permanently beneficial." Dr. W. E. Greene says, after giving several cases of heart disease: "In this new agent we have a very powerful measure in diseases of the heart. Not only palliative, but in many cases actually curative." Dr. Wm. A. Hammond gives this drug in migraine and epilepsy with good results. The dose is one drop of a one per cent. solution equal to one of the 1 100 gr. pills. It should be very cautiously increased. The above facts are taken from the "New York Medical Abstract," pp. 278 and 379, 1881, and p. 104, 1882. These granules have been highly mentioned abroad; the characteristic effect is felt almost instantly.

Phosphorus, 1-50 gr. / Pulv. Digitalis, 1 gr. / Ext. Hyoscyami, 1 gr.		
Pronounced a valuable medicine as a heart tonic. The tonic effect of Digitalis on the voluntary muscular fibre is claimed to be analogous to that of Strychnine on the involuntary muscular system. Dose, 1 pill two or three times a day, at equal intervals, which should be omitted when effect is produced upon the head, stomach, pulse, or kidneys. Caution should be used in administering these pills, and they should only be taken when and as prescribed by a physician.

PHOS., EXT. NUX VOMICA & EXT. ALOES. (Phosphorus, 1-50 gr. / Ext. Nucis Vomicæ, 1-4 gr. / Ext. Aloes Soc., 1-2 gr.) A good dinner pill, useful in atonic dyspepsia, hypochondria and other nervous affections accompanied by habitual constipation. When, in administering, for some time, Phosphorus and Iron or Phosphorus and Quinine, constipation is induced, this pill may be substituted with advantage once a day between doses. Dose, one immediately after dinner.	70	3 30
PHOSPHORUS, N. VOM. & CANTHARIDES. (Phosphorus, 1-50 gr. / Pulv. Nucis Vomicæ, 1 gr. / Tinct. Canthar. Conc., 1 minim.) Recommended as a gentle stimulant to the genito-urinary organs, a useful remedy in incontinence and retention of urine, and in premature loss of sexual power. Also successfully prescribed in some cases of amenorrhœa and leucorrhœa. Dose, one or two pills two or three times a day with food.	70	3 30
PHOSPHORUS, IRON & ALOES. (Phosphorus, 1-50 gr. / Ferri Sulph. Exsic., 1 1-2 grs. / Ext. Aloes Soc., 1 gr.) A valuable tonic and laxative.	70	3 30

PHOSPHORUS, MORPHINE & VAL. ZINC. (Phosphorus, 1-50 gr. / Morphinæ Sulph., 1-12 gr. / Zinci Valerianas, 1 gr.) Recommended as a quieting influence in Phthisis when there is a hysterical irritability and hacking cough without much fever. Dose, one pill two or three times daily, or two upon going to bed.	1 20	5 80
PHOS., QUIN. & N. VOM.	See Qu., Ph. & N. V.	
PHOSPHORUS, QUININE, IRON & STRYCH. (Phosphorus, 1-100 gr. / Quininæ Sulph., 1 gr. / Ferrum Reduct., 1 gr. / Strychnina, 1-60 gr.) By some preferred to pills of Phosphates Iron, Quinine and Strychnine.	1 40	6 80
PHOSPHORUS, SULPH. ZINC & LUPULIN. (Phosphorus, 1-50 gr. / Zinci Sulphas, 1 gr. / Lupulinum, 1 gr.) Very useful in diseases peculiar to women—uterine disturbances, torpidity of function, with leucorrhœa, dysmenorrhœa and hysteria. Also in melancholia and other mental derangements occurring on the appearance and cessation of the menses. Dose, 1 or 2, three times a day. In epilepsy and chorea 2 pills may be given three times a day.	70	3 30
PHYSOSTIGMINE, SALICYLATE 1-100 gr.	1 60	7 80
PICROTOXIN 1-80 gr.	60	2 80
A prominent physician, in referring to this remedy, says that his success with Picrotoxin in the treatment of night-sweating in Phthisis has been decidedly superior to any attained by the use of the mineral acids, belladonna and ergot, singly or combined. He writes: "I have not employed this drug in the night-sweats of phthisis solely. I recall a case of chronic pleurisy in which the effusion having been absorbed, convalescence was unaccountably retarded and prostration was so extreme that a latent, incipient phthisis was suspected. The skin was bathed in perspiration during the greater portion of the twenty-four hours, and this being the only discoverable morbid condition, I resolved to treat it with picrotoxin. It was promptly checked, and convalescence set in immediately. I have employed the drug in nearly one hundred cases. My custom has been to give a pill containing gr. 1-80 at bedtime, which dose may be repeated once or twice during the day in obstinate cases; and, at my suggestion, the firm of McKesson & Robbins have added such a pill to their list."

Dr. Wyss, (Der Fortschritt) has employed this drug with great success in acute affections of the respiratory organs. He prefers its internal exhibition to subcutaneous injection. Dose, one or two 1-8 grain granules, never on an empty stomach. As a galactagogue, larger doses may be given, but always short of the production of diaphoresis.

SALICIN ..... 1 gr.	50	2 30
SALICIN ..... 2 1-2 grs.	90	4 30
SALICIN ..... 5 grs.	1 25	6 05
Valuable in Rheumatic affections, also as a Tonic, Astringent, and Anti-Periodic, and is best exhibited in our Gelatine-Coated Pills. Salicin has been found very efficacious, and, according to "The Lancet," not less certain in acute Rheumatism than Quinine is for Ague. In large doses, it has been claimed to be an absolute specific in Cornelitis (suppurative.)		
SALICYLIC ACID ..... 1 gr.	45	2 05
SALICYLIC ACID ..... 2 1-2 grs.	50	2 30
SALICYLIC ACID ..... 5 grs.	80	3 80
Our pills present the best form for administering this now very important remedy, which has proved so efficacious in Rheumatism, and which is also extensively used as an Antiseptic and Febrifuge. It is claimed that the solutions, formed by the use of Sodium, Ammonium and other salts, produce combinations which do not represent the full value of the free Acid.

STRYCHNINE, SULPHATE, 1-200, 1-100, 1-50, 1-30 gr.	40	1 80
Strychnine sulphate may be given with advantage in certain cases of sleeplessness popularly appreciated in the phrase, "I am too tired to sleep," in these cases it sometimes acts like a hypnotic. Dose, 1-200 grain at bed-time. For the value of the nitrate of strycnnine in the alcoholic habit, see dipsomania.		
SULPHONAL ..... 5 grs.	3 25	16 05
SULPHUR, IODIDE ..... 1-25, 1-10 gr.	40	1 80
SUMBUL COMPOUND	1 20	5 80

TARTAR EMETIC...1-100, 1-20, 1-8, 1-4 gr.	40	1 80
TERPIN HYDRATE.....2 grs.	1 20	5 80
Terpin hydrate is obtained from turpentine, and has the general properties of the terebinthinates. It will be found useful in restraining the cough and secretion of bronchitis, in some cases of phthisis, and in hæmoptysis. It has, also, an action on the kidneys. Dose: Germain See and others have given as high as 10 to 15 grains; the best method of exhibiting the remedy, however, is two grains every three or four hours.		
THYMOL. (Thymic Acid).....2 1-2 grs.	1 00	4 80
Thymol has been used as a teniafuge and in cases of intestinal disease, catarrh, and typhoid fever. Dose, two 2 1-2 grain pills every six hours; much larger doses have been given, without bad results, but it is not often necessary to exceed twenty grains a day.		
TONIC, ALTERATIVE.....1	20	5 80
Hidrarg. Bichlor., 1-60 gr. Strych. Sulph., 1-60 gr. Acid. Arseniosum, 1-60 gr. Ferri Sesquichlor., 1 gr.

WOOD CREASOTE.....1-2 gr.	50	2 30
WOOD CREASOTE.....1 gr.	65	3 05
This form of creasote, which differs in a marked manner from carbolic acid or coal tar creasote, has been used in phthisis with good results by several observers. Among these, may be mentioned, Unna, Sahli, Solis-Cohen, and Lublinsky. It is best administered in pill form. Dose, always after meals, one-half to one grain three times a day. The medicine should be given for considerable time, and the dose may be gradually increased if necessary. This drug will also be found of great value in the treatment of bronchitis, catarrh and other similar affections. See Guaiacol.		
ZINC. OXIDE.....1-2, 1 gr.	40	1 80
ZINC. OXIDE.....2 grs.	40	1 80
Tonic, anti-spasmodic and astringent. Has been given in chorea, epilepsy, whooping-cough, spasm of the stomach dependant on dyspepsia, etc., and in the diarrhœa of infants.		
ZINC, PHOSPHIDE.....1-6, 1-4 gr.	45	2 05
ZINC, PHOSPHIDE.....1-2 gr.	65	3 05
Has been very successfully used by prominent authorities on treatment of brain diseases, also with remarkable results in severe cases of Neuralgia. See paper by Dr. Adolphus, which states that Phosphide of Zinc is more prompt and reliable in its action than free Phosphorus.		
ZINC, PHOSPHIDE, & EXT. NUX VOMICA..	60	2 80
Zinci Phosphidum, 1-10 gr. Ext. Nucis Vomicæ, 1-4 gr. Tonic. Useful in palsy, neuralgia and chronic constipation; also in brain diseases.		
ZINC, PHOSPHIDE, NUX VOM. & QUININE.1	10	5 30
Zinci Phosphidum, 1-10 gr. Ext. Nucis Vomicæ, 1-4 gr. Quininæ Sulph., 1 gr.		
ZINC, VALERIANATE.....1 gr.	60	2 80
ZINC, VALERIANATE.....2 grs.	75	3 55
Anti-spasmodic. Considered a remedy in neuralgic affections. Has been used with success in nervous diseases attended with palpitation of the heart, constriction of the throat and pain in the head. Useful in epilepsy, and in the nervous affections which accompany chlorosis. Dose, 1 to 3 grains, several times a day.		

QUININE PILLS.

From this date, our Pills of SULPHATE and BI-SULPHATE QUININE will be quoted at NET prices and not included on our regular list of Pills and Granules. The regular list of Pills other than Quinine is subject to the same discount as heretofore.

BI-SULPHATE OF QUININE IS MUCH MORE SOLUBLE THAN THE SULPHATE, THE LATTER REQUIRING SEVEN HUNDRED PARTS OF WATER TO DISSOLVE IT, WHILE THE BI-SULPHATE DISSOLVES IN TEN PARTS. IN ORDERING, WE WOULD ADVISE PHYSICIANS TO SPECIFY BI-SULPHATE. McK. & R.'s BI SULPHATE OF QUININE PILLS ARE MORE SOLUBLE AND MORE ASSIMILABLE THAN SULPHATE OF QUININE TAKEN IN POWDER.

The demand has largely increased, and experience has justified our further claim that on account of PROMPT ACTION and PERFECT SOLUBILITY, Bi-Sulphate of Quinine, although containing less of the Quinine Alkaloid, is MORE EFFICACIOUS, dose for dose, than Sulphate of Quinine. To be sure of the best results we must advise the profession in this, as in all other cases, to specify McK. & R. on their prescriptions.

Pills and Granules, Gelatine-Coated, of Rare and Expensive Alkaloids.

For the convenience of the Medical Profession, these Granules are put in bottles of 25 and 100 each. For other formulas, in bottles of 100 each see foregoing pages.

	Per 100 Pills.
CANNABIN, Tannate, bottles 25 pills.....1 gr. (Glucoside, from Cannabis Sativa). Recommended by Drs. Frommuller (Memorabilien von Betz) and Hiller (Charité, Berlin) as a mild and agreeable hypnotic, especially in cases of nervous sleeplessness, where morphine, etc., could not be administered. It is considered by these authorities superior to any preparation of opium, as it does not intertere with the digestive organs, or in any degree retard the motion of the bowels. Is particularly recommended to the notice of physicians in charge of hospitals for the insane. Dose, 1 to 8 pills.	5 00
CHELIDONINE, Muriate, bottles 25 pills....1 gr. (From Chelidonium Majus). A laxative, slightly diuretic. Unlike Chelerythrine, (from the same plant), it is not poisonous. Dose, 1 to 4 pills.	15 00
COCAINE, Muriate, bottles, 25 granules, 1-20 gr.	80
COCAINE, Muriate, bottles, 25 granules, 1-10 gr.	1 00
COCAINE, Muriate, bottles, 25 granules....1-8 gr.	1 20
COCAINE, Muriate, bottles, 25 granules....1-4 gr. Recommended in sleeplessness, vomiting of pregnancy, and for the cure of the "opium and chloral habits."	1 60
COLCHICINE, bottles 25 granules.....1-60 gr. (Alkaloid from Colchicum autumnale). Drastic, diuretic. In gout and rheumatism. Dose, 1 to 3 granules.	80
COLOCYNTHIN, bottles 25 granules.....1-8 gr. (Glucoside, from Citrullus Colocynthis). A very effective and painless purgative in large doses. As a laxative it may be given in doses of 1 to 5 granules.	1 60
CONVALLAMARIN, bottles 25 granules..1-100 gr. (Glucoside of Convallaria majalis: Lily of the Valley).	1 60
DATURINE, Sulph., bottles 25 granules..1-100 gr. (From Datura Stramonium). Dose and effect similar to that of Atropine, Duboisine and Hyoscyamine. The slight differences in effect noticed between these four alkaloids is probably due to traces of other principles not yet studied.	1 00
GELSEMININE, Sul., bottles 25 granules..1-60 gr. (From Gelsemium sempervirens). Recommended in spermatic and neuralgic affections, acting with very soothing effect on the dental nerves. It has also been employed with a measure of success in controlling cardiac palpitations. Dose, 1 to 3 granules.	1 00
HELLEBOREIN, bottles 25 granules....1-50 gr. (Glucoside, from Radix Helleborus). May be used as a cardiac stimulant instead of Digitalis. Dose, 1 granule. (See note on Digitaline).	80
HYOSCYAMINE, Sul., bots. 100 gran...1-100 gr.	1 20
HYOSCINE, Hydrobrom., bots. 25 gran., 1-100 gr.	1 60
HYOSCINE, Hydrobrom......1-200 gr.	1 20
MUSCARINE, Sul., bottles 25 granules..1-100 gr. Experiments with Muscarine have shown that it irritates the heart nerves, and acts on the organs of respiration. It also produces salivation and flowing of tears. Is antagonistic to Atropine.	2 40
PHYSOSTIGMINE, Salicylate, bottles 25 granules.....1-100 gr. (Salicylate of Eserine—from Physostigma venenosum). Dose, 1 granule, very cautiously increased.	1 60
PODOPHYLLOTOXIN, bottles 25 granules..1-8 gr. (From Podophyllum peltatum). The active principle of the resin of podophyllum, or podophyllin. Purgative in atonic constipation, etc. Dose, 1 or 2 granules.	1 00
SCILLITOXIN, bottles 25 granules .....1-300 gr. (From Scilla maritima). Dose, 1 granule, cautiously increased to 4 granules.	1 00
SCLEROTIC ACID, bottles 25 pills.....1 gr. (From Ergota—also called sclerotinic acid). Dose, 1 to 4 grains. Oxytocic and haemostatic. Recommended by Dr. Pianelli (in the Revue de Therap. Medcher.) in cases where haemorrhage occurs in tubercular disease of the lungs, one grain to be given every half hour or less frequently. It diminishes the excitability of the medullary centres, and lowers the blood pressure.	2 00

STEARAS COMPOSITUS.

The Compound Stearates, introduced recently to the leading Dermatologists of New York by McKesson & Robbins, are now presented to the Medical Profession at large, with confidence, as powders, which are remarkable for their mollescence when applied to anoint or protect diseased conditions of the skin and mucous membrane.

They are adhesive, and act as grateful vehicles in which drugs may be administered locally.

Desirable as adjuvants in insufflations and antipruritic as dusting powders, they can be used to protect the surface of the skin, without soiling the clothing, and offer a very profitable field for therapeutic investigation, where the frequently rancid oleates and ointments, or the ordinary soluble and non-adhesive dusting and other powders for the skin and mucous membrane, are not desirable. For Pulverizators, used with the Stearates, see page 106.

McK. & R. POWDERED DRUGS.

It seems highly proper to classify powdered drugs among pharmaceutical preparations, because the selection and garbling of the crude drug and its reduction to a powdered form make a *preparation* of the powder, and as such it should carry the label of the producer as a guarantee of its purity, the same as a bottle of Quinine or Fluid Extract. We have recently adopted 1 lb. square tins as containers, and prices quoted below, which will be subject to market changes, include the cans, the increased cost for which is trifling. These cans are very sightly and make neat and attractive shelf packages.

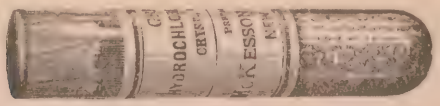

Powdered Cinchona Barks and Powdered Opium will be labeled with their respective assays, and upon the labels of Powdered Ergot and Powdered Narcotic Leaves will be stated the year that the crudes were gathered.

Other powders than those here quoted will be furnished, of guaranteed purity, upon application. Our desire is to have the trade order the following powders in 1 lb. cans only, and on that account we have merely added the increased cost, figured down to the lowest basis.

All powders sent out by us, in cans bearing our label, are guaranteed by us.

McK. & R. Muriate of Cocaine,

Anhydrous Crystals (entirely freed from Hygrine).

1 oz. vials.....$6 50 per oz.

The following abstract from an editorial in the *Amer. Druggist* will be found interesting:

* * * * * * *

"While the permanganate test, therefore, enables us to prove the freedom of a sample of cocaine from the amorphous bases, it does not follow, *eo ipso*, that the samples which did not stand the test were less effective, physiologically or therapeutically, than the crystalline. It will, however, be conceded that when we have the choice of two varieties of a substance—of about equal activity—and one of them can be obtained in a crystalline condition, while the other cannot, that it is the wiser plan to select the former as giving more guaranties for its purity.

The crystallized hydrochlorate of cocaine, $C_{17}H_{21}NO_4.HCl.(H_2O)_2 = 375.4$ contains 9.59 per cent. of water of crystallization, when crystallized from an aqueous solution.* *It forms anhydrous crystals, as we learn from a recent European report, when crystallized from alcohol.* The new British Pharmacopœia gives the formula of the salt without the water of crystallization, and therefore conveyed the impression that it required the salt to be furnished in an anhydrous condition. In fact, Howards and others were in the habit of supplying it anhydrous, though they also made the crystals. Now, if a cocaine salt, which has crystallized with water, is dried and rendered anhydrous, it will be practically the same thing as the same salt crystallized anhydrous from alcohol (supposing this were possible in every case). Such a desiccated crystallized salt has been in considerable demand, because it has been regarded by many as a more definite and uniform starting-point for making solutions of a known strength, than a crystalline salt in which the water of crystallization might vary from various causes."

McK. & R. brand of Anhyd. Crys. Muriate Cocaine is crystallized from an alcoholic solution, and is remarkable for the dryness, purity, and whiteness of the crystal. McKESSON & ROBBINS manufacture only the anhydrous variety, and physicians can feel assured of receiving a uniform article by ordering "McK. & R." Large Crystals in original vials. It is put up in 5, 10, 15 grain, ½ and 1 oz. vials. The *British Med. Jour.*, (July 24, 1886), speaking of McKESSON & ROBBINS' cocaine, says: "A nominally 5% solution is notably stronger than a solution prepared with other crystals. Both the *Lancet* and *Medical Press*, of London, speak in the highest terms of the McK. & R. preparations.

GOODS BY MAIL.

We have had much trouble on account of packages sent to us and ordered from us by mail, and would once more caution our customers that the laws are very strict.

All packages, containing POWDERS, or GLASS, except when enclosed in approved mailing-packages, PAY LETTER POSTAGE of TWO CENTS AN OUNCE. All *sealed* packages must be prepaid, two cents an ounce. Packages which can be opened for examination, and which do NOT contain Powders, Glass, or Written Matter can be sent by mail at one cent an ounce.

NOTE.—If the article is not fully prepaid, DOUBLE the balance of postage is charged, when the package is received from the mails, which must in turn be charged to the sender.

ALWAYS HAVE YOUR PRINTED ADDRESS on every package sent us by mail or express.

GOODS ORDERED BY MAIL ARE SENT AT THE RISK OF CUSTOMERS.

CHOICE PHARMACEUTICALS.

Special attention is requested to our quotations of choice pharmaceutical preparations, pages 83 to 130. Besides a general line of Fluid and Solid Extracts, Cerates, Elixirs, Gelatine-Coated Pills, Plasters, Tinctures and Wines, we quote a list of *Select Powdered Drugs, Oleates and Purified Salts*, the preparation of which we have made a special feature.

To those who have experienced difficulty in procuring these important classes of preparations of satisfactory quality, "McK. & R.'s" are recommended, with full confidence that they may always be dispensed without fear of disappointment to druggist or physician.

Trusting that your orders with us will be largely increased, we remain,

Very respectfully yours,

McKESSON & ROBBINS.

CORKS OF EXTRA QUALITY.

MALTESE

CORKS.  CORKS.

CROSS

A considerable deterioration in the quality of druggists' corks, due probably to the intense competition among some of the manufacturers, has been noticeable for some time and has led to much dissatisfaction. We have received many requests for a grade of corks better than the qualities generally supplied, and having made arrangements in our Cork Department to meet this demand, we now have the pleasure of offering the

McK. & R. "MALTESE CROSS" BRAND,

made of corkwood of the finest grades procurable, with confidence that they will merit the favor of the most exacting trade.

McKESSON & ROBBINS'

Fine Imported Insect Powder.

In Bottles, Doz., $1.50; Gross, $16 00.

BEST! LARGEST! CHEAPEST!

McKESSON & ROBBINS'

PURE

IMPORTED INSECT POWDER

Kills Cockroaches, Croton Bugs, Ants, Fleas, Lice, Bedbugs, Musquitoes, Moths and all other insects which infect houses, annoy animals and destroy plants and flowers. This Powder is imported by us direct, and our large facilities and extended correspondence enable us to procure the very best article fresh and pure.

Directions.—Three things are necessary to remember: 1st. *Use it in the daytime, by dusting it into holes and crevices around the sides of the room, as the insects are concealed during the day.* 2d. *The insects are destroyed by breathing the Powder, not by eating it, therefore distribute thoroughly.* 3d. KEEP THE BOTTLE WELL CORKED *and free from air to preserve its properties.* Flannels and woolen goods of all kinds are protected from Moths by scattering this Powder upon them and wrapping in linen or paper.

It is not injurious to human nor animal life.

THE HOUSEHOLD SYRINGES

Trade Mark **"HOUSEHOLD"** Registered.

PATENTED.

The celebrated "HOUSEHOLD" Syringe is manufactured of **PURE RUBBER.** Unlike all other syringes it has no metal fittings to become corroded, nor any screw threads or washers, which are so liable to get out of order, thus making the Syringe useless.

The Injection Tubes are not affected by acids, are soothing and agreeable in use, and easily exchanged by inserting them into the socket. For efficiency, cleanliness and durability the "HOUSEHOLD" is the most perfect Syringe obtainable.

WHAT THE DRUGGISTS SAY ABOUT

McK. & R.'s PURE FRUIT JUICES.

Mess. McKesson & Robbins: San Francisco, Cal., June 11th, 1889.

Dear Sirs—In regard to your Fruit Juices will say that we have used all the leading brands of Fruit Juices and find McK. & R.'s to be the best. Yours truly,

OESTING & CO.

Mess. McKesson & Robbins: San Jose, Cal., June 18th, 1889.

Gentlemen—We have been using your Pure Fruit Juices in our Soda Fountain for the past three years, and they give perfect satisfaction. Very respectfully yours,

J. M. BEAUMONT & CO.

Mess. McKesson & Robbins: Albany, Ga., June 1, 1889.

Gentlemen—The Fruit Juices bought of you are all that we can ask.

HILSMAN & AGAR CO.

Mess. McKesson & Robbins: Rockford, Ill., May 18, 1889.

Gents—We are using your Fruit Juices for our Soda Syrups this season; they are the best we ever had; our customers pronounce our Soda Water superior to all others; our Blood Orange is all the rage. We look for a large Soda Water trade and attribute a good share of it to your superior Fruit Juices. Very truly, HORTON & HENDERSON.

Mess. McKesson & Robbins: Council Bluffs, Iowa., May 20th, 1889.

Gentlemen—We desire to say that we have used McKesson & Robbins' Fruit Juices for three seasons, and for strength and natural fruit flavor they are hard to beat.

Yours, etc., CAMP & ELLIS.

Mess. McKesson & Robbins: Des Moines, Iowa., May 18th, 1889.

Gentlemen—We have just received the fifty gallons of Fruit Juices ordered through your Mr. Stone, and find them in good condition. This is the third or fourth season that we have used only McK. & R.'s Juices. You may have noticed that my orders are larger each year, and I feel justified in saying that I believe the regular increase in my Soda Water trade each year is due to the superiority of your Juices, to no small extent. The few gallons remaining from last year we find as nice and sweet as when first received.

Yours truly, NORMAN LICHTY.

Mess. McKesson & Robbins: Keokuk, Iowa, May 28, 1889.

Gentlemen—We have been using your Fruit Juices for the past two years to our entire satisfaction. Yours kindly, McGRATH BROS.

Mess. McKesson & Robbins: Sioux City, Iowa., May 23d, 1889.

Gentlemen—We are using your Fruit Juices, and in our estimation they are far superior to any others now in the market. We have had occasion to try a good many different makes. Yours truly, BOSSHARD & BURDIN.

Mess. McKesson & Robbins: Clinton, Mass., May 28, 1889.

Gentlemen—We started our new Fountain about a month ago and manufactured all our fruit syrups from your Fruit Juices. We take pleasure in stating that the great success which has attended our opening month's sales is due in a great measure to the purity and true flavor of your excellent juices. Our customers have taken an especial liking to your Raspberry, Strawberry, Grape and Pineapple, and make frequent calls for a repetition of the first dose. We shall soon take pleasure in repeating our first order.

J. A. CRANE & CO.

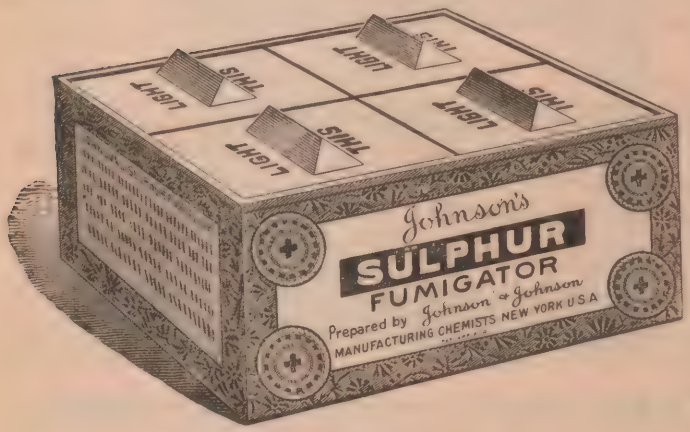

McKESSON & ROBBINS,

NATRONA BI-CARBONATE OF SODA.

(ABSOLUTELY PURE.)

The nature of the raw material from which Natrona Bi-Carbonate of Soda is made—viz.: Kryolith, a mineral containing *pure sodium*—insures a purity and uniformity of product which can not be obtained from any other known material. In making Bi-Carbonate of Soda from any other raw material, the use of sulphuric acid is a necessity, but none is used in any part of the process of making Natrona Bi-Carbonate, hence its entire freedom from the slightest trace of arsenic, which is always present in ordinary soda. Its absolute purity and entire freedom from all traces of *sulphate of soda*, common salt and other impurities render Natrona Bi-Carbonate nearly tasteless, and, being bolted through the finest bolting-cloth, insures the finest state of division. To these indisputable facts the attention of **consumers** of soda is specially called. They are important, and should influence both those who use and those who sell soda, to buy and sell **none but the best.**

The Natrona Bi-Carbonate of Soda is kept in stock by almost every wholesale druggist and Grocer throughout the United States, of whom it may be ordered.

Natrona Bi-Carbonate of Soda is Unequaled by any other brand of English or American manufacture.

THE READY FAMILY SOAP MAKER.

LEWIS' 98 o/o LYE.

POWDERED AND PERFUMED.

(PATENTED.)

The Strongest and Purest Lye Made. Will Make Twelve Pounds of the best Perfumed Hard Soap in 20 Minutes Without Boiling.

The Best Water Softener Made. The Best Disinfectant.

Some of the Advantages obtained by using Lewis' 98 per cent. Powdered Lye are—Unlike other lye it is packed in an iron can with a removable lid, easily taken off, thereby saving trouble and danger from flying particles. It being a fine powder, and the lid easily removed, the contents are always ready for use. A teaspoonful can be used in scrubbing, etc., and the lid replaced, saving the balance. With other lyes all must be used quickly or the strength is gone. Absolute purity. The best soap can be made in from ten to twenty minutes with this lye. In making soap no failure is possible if the simple directions are followed. One can is equal to twenty pounds of washing soda, is 28 per cent. stronger, and will saponify one pound more grease than any other preparation. One teaspoonful will thoroughly cleanse sinks, drains or closets, and is invaluable for killing insects, etc.

STANDARD HOUSEHOLD REMEDIES.

DR. D. JAYNE'S

FAMILY MEDICINES

Are prepared with great care, especially for family use, and are so admirably calculated to preserve health and remove disease, that no family should be without them. They consist of

JAYNE'S EXPECTORANT, for Colds, Coughs, Asthma, Consumption, and all Lung and Throat Affections. It may be depended on to promote cures by facilitating expectoration, and allaying inflammation.

JAYNE'S TONIC VERMIFUGE. There is no better TONIC for Adults or Children, and it is especially useful in all cases of Disordered Digestion. For General Debility, Dyspepsia and Sour Stomach, it is a certain curative, and for Worms and Intermittent Fevers of Children it is an old-time remedy.

JAYNE'S CARMINATIVE BALSAM, for Bowel and Summer Complaints, Colics, Cramps, Cholera, etc. It is a certain cure for Diarrhœa, Cholera Morbus, and Inflammation of the Bowels.

JAYNE'S SPECIFIC FOR THE TAPE WORM, is a sure destroyer of this troublesome parasite, and usually drives it from the body in two or three hours.

JAYNE'S ALTERATIVE, is the surest medicine for Purifying the Blood, and of established efficacy for curing Scrofula, Goitre, Dropsy, Epilepsy, Salt Rheum, and all Diseases of the Skin and Bones.

JAYNE'S LINIMENT OR COUNTER IRRITANT, for Sprains, Bruises, Soreness in the Bones or Muscles, helpful in Rheumatism or Neuralgia, and useful in all cases where an external application is appropriate.

JAYNE'S SANATIVE PILLS, small size, sugar-coated, a mild Aperient or active Purgative, according to dose, and an effective remedy for all Bilious Affections, Liver Complaints, Costiveness, Dyspepsia, and Sick Headache.

JAYNE'S HAIR TONIC, for the Preservation, Beautifying, Growth, and Restoration of the Hair. It is a pleasant dressing for the Hair, and a useful toilet article.

In settlements and localities where the attendance of a Physician cannot be readily obtained, Families will find these Remedies of great service. The Directions which accompany them are in plain, unprofessional language, easily understood by all, and in addition, **Jayne's Medical Almanac and Guide to Health,** to be had gratis of all Agents, contains besides a reliable Calendar, a Catalogue of Diseases, THE SYMPTOMS BY WHICH THEY MAY BE KNOWN, together with advice as to the proper remedies to be used.

All of Dr. D. Jayne & Son's Family Medicines are sold by

Further Reports on McK. & R.'s Pure Fruit Juices.

Mess. McKesson & Robbins: Omaha, Neb., June 6th, 1889.

Gentlemen—I have been using your Pure Fruit Juices in the manufacture of syrups for my Soda Fountain for the past two seasons, and find them equal if not superior to any I have ever tried. Telegraphed your house June 4th for 50 gallons of Raspberry Juice, which I hope will reach here soon. Yours very truly, D. W. SAXE.

Mess. McKesson & Robbins: Cold Spring, N. Y., May 23d, 1889.

Gentlemen—It is with pleasure that we are enabled to testify in a favorable manner to the worth of your Fruit Juices. They are a source of great satisfaction to the dispenser of good Soda Water, and hold a very important position in the estimation of our patrons. Very truly yours, BOYD & CO.

Mess. McKesson & Robbins: Brenham, Texas, May 28th, 1889.

Gentlemen—We have been using some of your Fruit Juices this season, and take pleasure in stating that they have given perfect satisfaction.

Yours respectfully, CARLETON & NASH.

Mess. McKesson & Robbins: Milwaukee, Wis., May 20th, 1889.

Gentlemen—We have used your Fruit Juices for two years, and have found them to fulfil all our expectations. They are very rich and represent faithfully the true flavor of the several fruits from which they are made. Our trade also endorses them, and we anticipate a large increase of our wants during the coming season.

Very truly, your friends, SPIEGEL, CROLIUS & CO.

Mess. McKesson & Robbins: Highland, N. Y., May 17th, 1889.

Gentlemen—I have had the pleasure of using your exquisite Fruit Juices for three seasons, and find them to please the most fastidious. With kind regards, I beg to remain,

Yours respectfully, JAMES DEGRAFF.

Mess. McKesson & Robbins: Eau Claire, Wis., May 17th, 1889.

Dear Sirs—It is with pleasure that I recommend your Fruit Juices in preference to any others. They give entire satisfaction and my Soda sales have doubled since I began to use your syrups. Very truly, E. A. BALLARD.

Mess. McKesson & Robbins: Griffin, Ga., January 17th, 1891.

Gentlemen—It gives me pleasure to say of your Fruit Juices that they are the finest I have ever used, and, having had eight years' experience in this line, I have used much of the leading brands. Yours very truly, J. W. MANGHAM, Mgr.

MANGHAM COLLIER DRUG CO.

Mess. McKesson & Robbins: Beloit, Wis., May 21st, 1889.

Gentlemen—We noticed a marked increase in our sales of Soda Water when we commenced the use of McK. & R. Fruit Juices. We expect to use them exclusively as long as we continue in business. Respectfully, C. A. SMITH & CO.

Mess. McKesson & Robbins: Oswego, N. Y., June 4th, 1889.

Gentlemen—We have been using your Fruit Juices for the past three years, and for strength and natural fruit flavor, we must say they excel all juices we have yet tried, and will still continue to use them as long as you keep them up to the present standard.

Respectfully yours, D. MAHONEY & CO.

Mess. McKesson & Robbins: St. Louis, April 14th, 1890

Dear Sirs—We find your Fruit Juices superior to any we have ever used.

Yours truly, JUDGE & DOLPH.

Mess. McKesson & Robbins: Milwaukee, Wis., June 10th, 1889.

Gentlemen—We are using your Fruit Juices for our soda fountain and find them entirely satisfactory. Yours, etc., JOHN H. TESCH & CO.

Mess. McKesson & Robbins: Canton, Pa., June 13th, 1889.

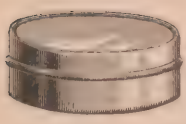

Gentlemen—I have used your Fruit Juices for the last three years, and find them perfectly satistactory and superior to any I have ever used. Respectfully,

J. O. WHITMAN.

Mess. McKesson & Robbins: Temple, Texas, May 24th, 1889.

Gentlemen—I have used McKesson & Robbins' Fruit Juices this season, and find them to be equal if not superior to any I have ever used. W. E. WILLIS.

LIEBIG COMPANY'S EXTRACT OF BEEF.

The standard for purity, flavor and wholesomeness. Its quality never varies and it is the same to-day as when first put up by its inventor, the great chemist, Justus von Liebig, whose signature it bears in blue, on every jar.

Inferior and imitation sorts are coarse, of disagreeable odor and unpleasant flavor, but the genuine

Liebig COMPANY'S

has the odor of roast beef gravy, a fine flavor, dissolves clearly in water and assimilates with the finest and simplest cookery.

PYROZONE.

Be careful to specify the strength of Pyrozone Solutions by percentage, as well as the description Medicinal, Antiseptic, or Caustic.

Pyrozone, 3% Solution (Medicinal), in 4 oz. G. S. Bottles.
Pyrozone, 5% Solution (Antiseptic), in glass tubes.
Pyrozone, 25% Solution (Caustic), in glass tubes.

With these preparations Dentists may control inflammation in all its various phases, from incipient congestion to ichorous discharge.

Pyrozone 3% Solution, is an ideal mouth wash for smokers, and a harmless and rapid bleacher for children's teeth when applied by a Dentist's direction.

Pyrozone 5% Solution, removes the brown and green stain about the necks of children's teeth, and when applied by the Dentist does not effect the gums.

Pyrozone 25% Solution, promptly controls the suppuration in nearly all cases of pyorrhœa alveolaris.

SPECIAL PAMPHLET OF PYROZONE SOLUTIONS MAILED UPON APPLICATION.

McK. & R. Phenate of Cocaine.

A local anæsthetic for extraction, congested pulps, and in opening abscesses, in nearly all cases IT ENTIRELY SUBDUES PAIN WITHOUT CONSTITUTIONAL EFFECT.

GALLACETOPHENONE,

A NEW DERMATO-THERAPEUTIC AGENT.

By Hermann Goldenberg, M.D.

It is well known that pyrogallic acid is by no means a harmless drug. After its introduction into dermatological practice Neisser lost a patient after one application. The patient died on the third day with symptoms of intoxication. Vidal has likewise reported the death of a patient, eighteen years old, who had used a ten per cent. pyrogalic ointment for two weeks. The poisonous effect of pyrogallic acid is to be attributed to the great readiness with which it is oxidized in alkaline solutions (being so intensely reducing).

Gallacetophenone does not posses this quality and is absolutely harmless, as has been proven by experiments on animals.

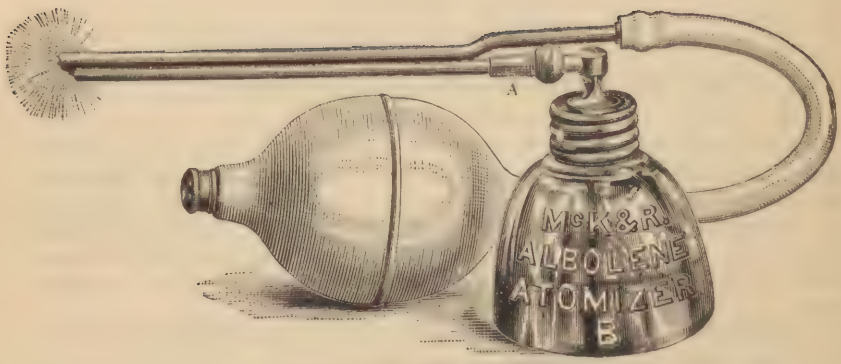

It displays strong antiseptic qualities. A one per cent. solution added to chopped meat prevented its becoming putrid for twenty-one days, and destroyed the *Streptococcus aureus* within twenty-four hours.

JOBBERS OF

Drugs AND Heavy Chemicals.

The oldest Medicine in the World is probably

Dr. ISAAC THOMPSON'S CELEBRATED EYE WATER.

This article is a carefully prepared physician's prescription, and has been in constant use for **NEARLY A CENTURY.** For all external inflammation of the eyes it is an infallible remedy. For safety and efficacy it has never been equalled in removing ophthalmia or inflammation of the eyes at the commencement, and in curing chronic cases from defluxion of sharp humors. If the directions are followed it will never fail. We particularly invite the attention of physicians to its merits.

CAUTION.

Any Thompson's Eye Water which has not the portrait of the inventor, **Dr. ISAAC THOMPSON**, engraved on a white wrapper, together with the signatures of Isaac Thompson and John L. Thompson, is **SPURIOUS.**

This article can be had with either English or Spanish directions.

DIURETIN-KNOLL.

DIURETIN-KNOLL has now been extensively used in Europe and this country, in the cure of BRIGHT'S DISEASE, ACUTE AND CHRONIC NEPHRITIS, KIDNEY AND HEART AFFECTIONS IN GENERAL; and in the SCARLATINAL NEPHRITIS, and other KIDNEY DISORDERS which follow the fevers of children.

MANNER OF DISPENSING.

DIURETIN-KNOLL should not be dispensed in paper, nor should it be exposed to the air. It is very soluble in warm water, and remains in solution when the water is cold.

We are happy to announce a reduction in prices. See page 29.
CAUTION.—None genuine without the label, described above.

DOSE—ADULTS.

Ten to fifteen grains may be given from four to eight times a day; in certain cases as high as 200 grains a day have been given. As a general rule the effects of the drug are manifested in 48 hours, or sooner. DIURETIN-KNOLL is neither cumulative nor toxic.

DOSE—CHILDREN.

DR. DEMME recommends the following for children:

Diuretin-Knoll	gr. xxij.
Distilled Water	℥ iij.
Brandy	gtt. x.
Sugar	grs. xl.

M. Sig. Take in the 24 hours in doses of one tablespoonful.

For children of from 2 to 5 years old the daily dose is 7½ to 22 grains; and for children of from six to ten years, 22 to 45 grains a day.

The genuine is issued only in original square glass-stoppered vials of 1 oz., labeled as above.

Saunders's Face Powder, or Bloom of Ninon,

FOR BEAUTIFYING AND PRESERVING THE COMPLEXION.

SAUNDERS'S FACE POWDER IS NOW PREPARED IN THREE SHADES—PINK, WHITE, JAUNE, THE LATTER BEING SUITABLE FOR DARK COMPLEXIONS.

SPECIAL TRADE NOTICE.

On and after this date, in addition to the Strip Label hitherto used round the boxes, there will be a special Trade Mark Label, a *fac-simile* of which, printed in black ink only, is annexed hereto.

The Trade Mark Label, which will in future be used on all articles of my manufacture, is printed thus: a grayish black ground on which the lettering is in black; the centre oval in vermilion, on which the monogram appears in white, shaded black; the bordering lines and and corners in vermilion. This label being duly registered in the Patent Office, Washington, U. S., all persons infringing J. TOUZEAU SAUNDERS'S trade rights will be proceeded against.

As this Trade Mark Label bears my signature, it will not in future appear on the Strip Label hitherto used.

The Trade Mark Label will be used on all goods of my manufacture.

As it is in the interest of all respectable traders that fraud should be exposed and punished, I shall feel greatly obliged should any imitations come under the notice of the trade, to whom this is addressed, if they will advise my Attorney, Mr. C. W. TOWN, 47 Wall Street, New York, thereof.

I take this opportunity of cordially thanking my friends in the United States for their kind favors during so many past years. Very respectfully,

312 Oxford St., London, 1st Jan., 1879. J. TOUZEAU SAUNDERS.

SAUNDERS'S EAU BLONDE, or GOLDEN HAIR WASH, has a large sale and is much approved.

THE SMOKER'S TOOTH POWDER and LADIES' OWN TOOTH POWDER are most agreeable dentifrices, and command a good sale wherever they are introduced.

SAUNDERS'S LIQUID BLOOM OF ROSES, a purely vegetable production, as harmless as water; greatly improves the appearance where the complexion is pale. It may be graduated to any tint, and is so natural as to defy defection.

SAUNDERS'S EAU MERVEILLEUSE is the only true restorative of the natural color of Hair which has become Grey from whatever cause. A patient investigation of the physical causes of the organic debility to which the presence of Grey Hair is attributable, has resulted in the discovery of the true remedial agent, which is here introduced under the appropriate title of EAU MERVEILLEUSE.

SAUNDERS'S GUARDS' HAIR DYE instantaneously changes Red or Grey Hair to a natural Brown or Black, is perfectly harmless, and half the price of the ordinary Dyes.

The Whiskers and Mustachios dyed in one minute.

The GUARDS' DYE has now been in use many years, and is preferred to all others.

ESTABLISHED SINCE THE FLOOD!

Monell's Teething Cordial.

The Mother's Pet,
—AND—
The Children's Best Friend.

Price, 25 Cents.

Eminent medical authority like Dr. Willard Parker, of New York, and Dr. Warren Stone, of New Orleans, recommending MONELL'S TEETHING CORDIAL as being the best preparation for young children in dysentery, diarrhœa, wind colic and all diseases young children are subjected to, especially while passing through the terrible ordeal of Teething, and in fact the only safe medicine to quiet and allay all pain and produce a quiet, healthy and refreshing sleep is a sufficient guarantee of its wonderful effects. Another proof of its merits is its rapid sale, which ought to be sufficient to commend it to every mother who has a child; it is not poisonous or injurious in any way, is **Warranted** perfectly **Harmless,** does not make the child dumb and stupid, but on the contrary, after a refreshing sleep, the child awakes fresh and vigorous as thousands that are using it can testify. Give it a fair trial and if it meets with your expectations, inform your friends of it, for it certainly is a blessing to all, to see their child relieved from all pain and suffering caused by the terrible ordeal of teething and all other pains the little ones are subjected to; Bowel Complaints, Dysentery, Disarrangement of the Stomach, Diarrhœa, Wind Colic, &c. Mothers who have given it a fair trial praise it in the most glowing terms. Why? Because by using it they can sleep all night and feel well during the day by having a good night's rest.

EXALGINE.

EXALGINE has now been employed in a great many cases of almost every kind of pain, and has been successful where numerous other drugs have failed.

It has been employed in very young children as well as in adults, and it has been well tolerated when properly given.

In the treatment of chorea in children Exalgine was given in doses of three grains three to five times a day for as long as four months. Where a disagreeable effect was produced it was only necessary to withhold the drug for a short time, after which it could be given in the same doses as before and was perfectly tolerated.

Exalgine has been used to quiet the pain of burns, as well as in rheumatism, sciatica, etc. It may also be used in ointments to ease the pains of ulcers, and other sores.

DOSE—ADULT.

Exalgine is not active in proportion to the size of the dose; it is not cumulative, neither is it necessary to increase the dose after the physiological amount has been ascertained. DÉSIRÉ, who used Exalgine with good effect in hundreds of cases, rarely gave over four grains twice a day; DESNOS recommends 4½ grains, not over, as a single dose, repeated three or four times a day. These doses are now considered larger than necessary; very frequently two grains for one dose, repeated three times a day, will have all the effect required.

DOSE—CHILDREN.

MONCORVO, who treated a great number of children for nearly every variety of pain, of ages varying from eighteen months to twelve years, recommends three-fourths of a grain as the initial dose, to be gradually increased to 1½ grains three times a day.

HYPODERMATICALLY.

DR. ROBERTS BARTHOLOW uses 1 to 4 grains a day in this manner, dissolved in water containing as little alcohol as possible. "If given as a hypnotic, somnolence begins in 15 to 30 minutes, and sound sleep soon follows, very like the quiet, tranquil breathing of an adult in good health."

Exalgine dissolves rapidly in warm water, and when cool the water will retain in solution 8 or 10 grains to the ounce.

THE VOICE OF THE DRUG TRADE ON McK.&R.'S PURE FRUIT JUICES.

MESS. McKESSON & ROBBINS: FITCHBURG, MASS., May 27th, 1889.

Gentlemen—Your Fruit Juices are proving very satisfactory. I have never used any with as full fruit flavors or that were more economical. Yours respectfully,

HENRY A. ESTABROOK.

MESS. McKESSON & ROBBINS: WALTHAM, MASS., May 28th, 1889.

Gentlemen—We are using your Fruit Juices this season, and we think they are the *best* and give our customers better satisfaction than any we have ever used. The Pineapple is exceptionally fine. Yours very truly, HALL & LYON.

MESS. McKESSON & ROBBINS: DETROIT, MICH., May 20th, 1889.

Dear Sirs—It gives us great pleasure to say to you that since we have been handling your Fruit Juices, we have had only the most complimentary reports. All our customers speak in the highest terms of their excellence. They are the best selling and most satisfactory Pure Fruit Juices in the market. Yours truly,

LAMBERT & LOWMAN.

MESS. McKESSON & ROBBINS: WORCESTER, MASS., May 14th, 1889.

Gentlemen—Kindly send us at once by Express, 5 gallons each, Pineapple, Strawberry, Raspberry, Orange. Your Juices are meeting with my customers with very good result, they are surely equal to any others of higher cost, I have had previous to them.

Very truly yours, "PHARMACIE FRANCAISE."

MESS. McKESSON & ROBBINS: BAY CITY, MICH., May 18th, 1889.

Dear Sirs—We take pleasure in stating that we find the McK. & R. Fruit Juices very satisfactory, and we think *finer* than any we have ever used before.

Respectfully, HULL & TILTON.

MESS. McKESSON & ROBBINS: WALTHAM, MASS., May 28th, 1889.

Gentlemen—Your Fruit Juices are the finest and best I have ever used. The Strawberry in particular has occasioned several comments, for the genuine fruit flavor; as a whole they are without an equal. Yours, etc., E. E. JENNISON.

MESS. McKESSON & ROBBINS: GRAND RAPIDS, MICH., June 1st, 1889.

Gentlemen—Your Fruit Juices give entire satisfaction to our trade. Our sales this year to date are double what they were for the entire year of 1888.

Yours truly, HAZELTINE & PERKINS DRUG COMPANY.

MESS. McKESSON & ROBBINS: DETROIT, MICH., May 17th, 1889.

Dear Sirs—We take great pleasure in stating that we have used your Pure Fruit Juices for several years, and have found them uniformly satisfactory in every particular.

Yours truly, FRED. D. STEVENS & CO.

To C. G. STONE, Representing
McKESSON & ROBBINS: BAY CITY, MICH., May 18th, 1889.

Dear Sir—We have used McK. & R.'s Fruit Juices for the past two years, and can only speak in praise of them, having always given us perfect satisfaction. Would recommend them. Respectfully yours, MASON & BEACH.

MESS. McKESSON & ROBBINS: GRAND RAPIDS, MICH., May 20th, 1889.

Gentlemen—We have used your Fruit Juices and find them satisfactory in every way.

Yours, WHITE & WHITE.

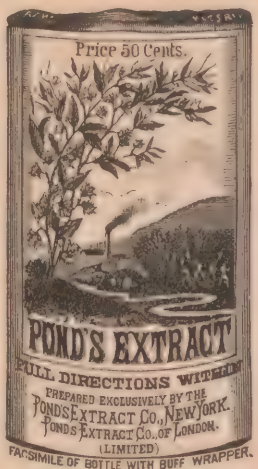

MESS. McKESSON & ROBBINS: JANESVILLE, WIS., May 18th, 1889.

Gentlemen—Having used your Fruit Juices for four years past, I am glad to offer a word in their favor, for I realize that a large share of my success in my Soda Water department is owing to them. I have purchased in bulk and have been well pleased with the way they have kept, and my syrups have a fruity flavor which I was never able to obtain by the use of any extracts, and I am glad to recommend them to anyone using same. With best wishes for your continued success with the same, I am,

Yours truly, E. B. HEIMSTREET.

McGOWAN'S
Vaccination Epaulet.

DIRECTIONS FOR USE.

After the child is completely dressed, insert its hand into the round padded hole, and pass the Vaccination Epaulet over the arm until it comes to the arm-pit. Be careful not to touch the vaccine marks.

Pass the small cord under the clothes on the shoulder, and loop it back upon the button.

Tie the long ribbons around the child's body, so as to hold the lower portion of the shield firmly against its side.

Should a protection from cold, &c., be needed, a wide, loose sleeve may be passed over the arm, and fastened to the Vaccination Epaulet at the shoulder.

N.B.—Upon no account whatever must the same Epaulet be used in a second case, as soiled Vaccination Epaulets are apt to cause inflammation.

McK.&R. Albolene Atomizer.

THE ALBOLENE ATOMIZER, **A.**

This is the simplest and handiest atomizer in the market.

It takes up but little room, can be easily filled and emptied, is well and strongly made, not easily broken, and can be readily carried in the pocket.

The Albolene Atomizer is expressly designed for the vaporization of Liquid Albolene and combinations in the treatment of diseases of the air passages: asthma, bronchitis, hay fever, nasal catarrh, etc.

McK.&R. LIQUID ALBOLENE.

Supplied only in 4 oz., 16 oz. and 5 lb. Bottles.

This is a colorless, tasteless and odorless fluid obtained from petroleum; it does not saponify nor become rancid, is not decomposed by acids or alkalies, and is especially adapted for use in a vaporizer or spray apparatus.

Dr. Charles H. Knight uses a spray of menthol and liquid albolene. Dr. Lennox Browne found the same agent very valuable in the treatment of influenza; he also uses it constantly for ordinary colds, bronchitis, etc.

"Liquid Albolene is preferable to fluid vaseline, for the latter alone often proves irritating to the mucous membrane."—Dr. S. S. Bishop, *Med. News*, July 26, 1890.

McK.&R. BENZOINATED LIQUID ALBOLENE.

Supplied only in 4 oz., 16 oz. and 5 lb. Bottles.

This is a very agreeable preparation of liquid albolene. It is especially recommended for use in an atomizer, and also for operations on the eye. For this last and most delicate purpose liquid albolene is eminently fitted, as, according to Dr. Lundy, it never becomes rancid, as other preparations so often do. This is due to its absolute purity.

McK.&R. COMBINATIONS OF LIQUID ALBOLENE.

Camphorated Liquid Albolene.
Campho-Carbolated Liquid Albolene.
Campho-Mentholated Liquid Albolene.
Carbolated Liquid Albolene.

Thymolated Liquid Albolene.

Supplied only in 4 oz., 16 oz. and 5 lb. Bottles.

McK.&R. ALBOLONE SPRAY SOLUTION.

Formula:—Menthol, Thymol, Eucalyptol, Liquid Albolene.

Supplied only in 4 oz., 16 oz. and 5 lb. Bottles.

☞ We are obliged to caution the profession against injurious imitations of McK.&R. Liquid Albolene and Combinations, and would suggest their prescribing in 4 oz. or 1 lb. bottles whenever practicable.

ORANGE BITTERS.

THE LONDON CORDIAL OLD TOM GIN OF SIR ROBERT BURNETT & CO.,

in bulk and in cases, has reached a PHENOMENAL SALE in the United States under our supervision, and threatens to exceed the combined sales of all other brands, including base imitations, and simulations that barely escape prosecution by reason of just avoiding trespass on Trade-Mark. SEE THAT the name upon the label is "BURNETT," and not spelt in any other way; also that the full signature of that firm is WRITTEN diagonally across the RED LABEL.

CHLOR-ALBOLENE.

No volatile antiseptic can compare with purified chloroform in the rapidity of its effect on pathogenic germs.

In rhino-pharyngeal and laryngeal treatment, the inhalation of the natural vapor of chloroform lacks the local bactericidal potency, which can be obtained by a direct spray of this agent in a vehicle so well calculated to localize its application as liquid albolene.

Chlor-Albolene offers an opportunity to test the claims made for the wonderful antiseptic power of chloroform, which came so prominently into notice during the recent epidemics.

In consequence of its diffusible character, chloroform penetrates quickly into the nasal fossæ, throat, and bronchial tubes, acting directly on the germ causes of disease.

The following preparations, suitable for use in an Albolene Atomizer, are now receiving the very best class of demand:

CHLOR-ALBOLENE.
HYDRASTOL.
LIQUID ALBOLENE SPRAY SOLUTION.
LIQUID ALBOLENE WITH CUBEB.
LIQUID ALBOLENE WITH THUJA.

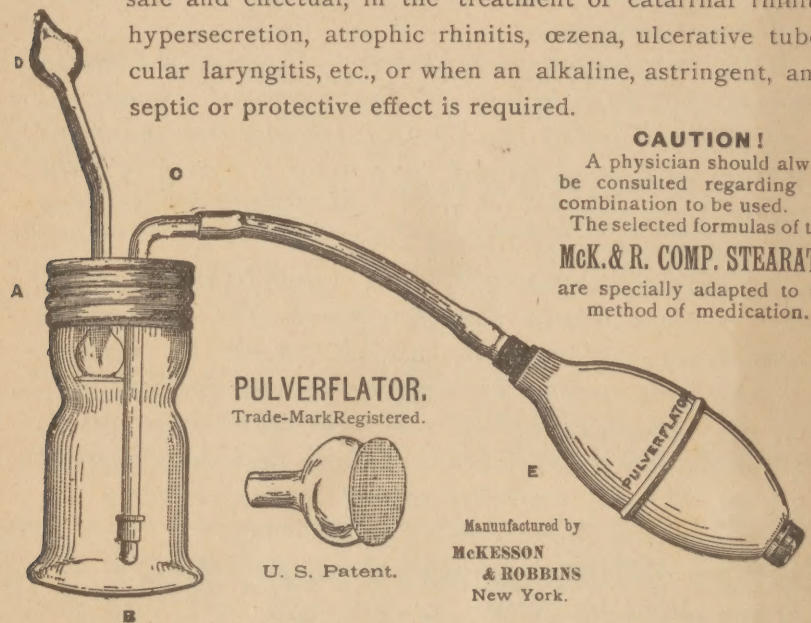

A spray of Chlor-Albolene is especially satisfactory prior to insufflating the passages with Compound Stearate of Zinc with Aristol or Europhen, both of which are more grateful in this form than in solution.

PULVERFLATOR.

This instrument prevents aggregations of powders from being inhaled, or otherwise coming in contact with diseased conditions of the nasal or other mucous membrane passages, and renders such administration more safe and effectual, in the treatment of catarrhal rhinitis, hypersecretion, atrophic rhinitis, œzena, ulcerative tubercular laryngitis, etc., or when an alkaline, astringent, antiseptic or protective effect is required.

CAUTION!

A physician should always be consulted regarding the combination to be used. The selected formulas of the

McK.& R. COMP. STEARATES

are specially adapted to this method of medication.

PULVERFLATOR.
Trade-MarkRegistered.

U. S. Patent.

Manufactured by
McKESSON
& ROBBINS
New York.

DIRECTIONS FOR USING THE PULVERFLATOR.

Remove the screw cap **A** and put sufficient of the powder prescribed into the bottle to cover the rubber cap or valve **B** on the glass tube inside; after which replace the cap **A** firmly over the rubber stopper. Adjust the bulb and rubber tube to the valved glass tube **C** and insert the distributing tube required **D**. The Pulverflator should be used after a full inspiration of air into the lungs, and when the powder has been blown into the anterior and posterior nares or throat, by compressing the bulb **E** gently, the patient should exhale, and in this way prevent the powder from covering more than the passages for which it is intended. The bulb **E** and rubber tube can be kept free from powder only by keeping the rubber cap or valve **B** on the inside end of the glass tube **C**. The bolting cloth sieve **F** effectually prevents aggregations of any powders from passing through the tube **D** and renders their administration perfectly safe and effectual. Should the sieve on the bottom of the bulb **F** become clogged, the obstruction can be readily brushed or blown off.

One package of the McK. & R. Comp. Stearate of Zinc with Menthol supplied with each Pulverflator, also a complete list of formulas for physicians' prescriptions and office use.

PRICE, $1.50 EACH.
